

PA-DEP Laboratory Accreditation Program	Effective: January 9, 2007
List of Approved PT Providers	Last Revised: 1/9/2007
Revision 2	Page 1 of 2

## Approved Providers of Proficiency Testing for Pennsylvania State (Chapter 252) Accreditation

The Pennsylvania Environmental Laboratory Accreditation Regulations, §252.501, require environmental laboratories to successfully analyze at least one single blind, single concentration proficiency test (PT) study for each field of accreditation, where available under subsection (a) and the published Fields of Proficiency Testing Tables. Proficiency tests must be purchased directly from providers approved by the Department of Environmental Protection (“Department”) as a PT provider (§252.501.e). The Department has approved the following PT study providers.

Not all providers are accredited for all studies. Please contact the providers directly for their scope of accreditation.

### **Absolute Standards, Inc. [2429.01]**
