RE Climate Change Advisory Committee

Enclosed for your review and approval are the draft meeting materials for the next Climate Change Advisory Committee (CCAC) meeting which is scheduled for Thursday, January 26th from 10:00 A.M. to 3:00 P.M. in Conference Room 105 of the RCSOB.

The primary purpose of this meeting is the review of several of the modified work plan recommendations to reduce greenhouse gas (GHG) emissions and to review the draft GHG inventory for 2008 (latest year with complete data to prepare such an inventory. While more difficult to read, the revised work plan documents include "track changes" features because committee members have requested this feature for greater transparency and understanding. Because of the ongoing work by the subcommittees, the Subcommittee Chairs will be asked to speak on the status updates and draft work plan revisions during the meeting.
