Hazardous Sites Cleanup Fund Key-Abbreviations, Acroynmys, Terms, Notations

	,
DEP Regions	DEP has six regional offices that directly oversee response actions: SE - Southeast, NE - Northeast, SC - Southcentral, NC - Northcentral, SW - Southwest, NW - Northwest. See DEP website for locations and phone numbers.
10 Percent Match Payment	
Schedules	Payment schedules are negotiated on a site-by-site basis depending on the length of time the remedial action is expected to take before completion. These payments do not include future operation and maintenance costs.
ACM	Asbestos Containing Material
Act 2	Pennsylvania's Land Recycling and Environmental Remediation Standards Act
AFFF	Aqueous film forming foam, which is a highly efficient type of fire suppressant agent.
ATSDR	Agency for Toxic Substances and Disease Registry. A federal public health agency of the U.S. Department of Health and Human Services.
AZR	American Zinc Recycling facility in Palmerton, PA
Brownfields	Brownfields are underutilized properties where the presence or potential presence of hazardous substances, pollutants or contaminants complicates expansion, redevelopment or reuse of the properties.
CERCLA	Comprehensive Environmental Response, Compensation and Liability Act/Federal Superfund Law
CMSA	Cooperative Multi-Site Agreement
CO&A	Consent Order and Agreement A stage of the project when remedial systems and controls have been installed or are operating that address all threats posed by contamination at the site. However, the cleanup plan goals and standards have not been achieved; for instance, concentration of contaminants in the groundwater may
Construction Complete CECs	a stage or the project when remenant systems and controls have been instance or are operating find a dozers as in threats posed by Contaminants of Emerging Concern; are synthetic for naturally occurring chemicals that we did not have the ability to monitor in the environment to the systems and surfaces over the project of the project
CECS	Contaminants of the gaing Content, are symmetry or manager and the content of the
CPA	Detect them in the environment, According to EPA) Civil Penalty Sessment Civil Penalty Sessment
CSFT	Cent county Assessment Control Stock and Franchise Tax
DCED	Pennsylvania Department of Community and Economic Development
DCNR	Pennsylvania Department of Conservation and Natural Resources
DEP	Pennsylvania Department of Environmental Protection
DOD	US Department of Defense
DSMOA	Defense and State Memorandum of Agreement
EC	Environmental Convenant
ECOBOND*	ECOBOND® is the proprietary and patented family of treatment technologies to reduce hazards due to leaching of toxic metals in the environment.
EnviroBlend®	A family of treatment chemicals, custom-blended to render metal bearing wastes non-hazardous. It can be utilized for soil and groundwater remediation, industrial process waste stream treatment, and lead paint abatment.
EPA	United States Environmental Protection Agency
Final Cleanup Achieved	Under RCRA, The ultimate goal of the Corrective Action Program is to achieve final cleanups.
FUDS	Federal Military Formerly Used Defense Sites
Considerate Milesetics	Fiscal year: The Commonwealth's fiscal year starts on July 1st and ends on June 30th of the following year.
Groundwater Migration Controlled	
	Under RCRA, Groundwater Migration Controlled or Groundwater El (Environmental indicator) ensures that contaminated groundwater does not spread and further contaminate groundwater resources.
HAL	Health Advisory Level
HSCA	Pennsylvania's Hazardous Sites Cleanup Act
HSCF	Hazardous Sites Cleanup Fund
Human Exposure Controlled	Under RCRA, Human Exposure Controlled, or Human Exposures EI (Environmental Indicator) ensures that people near a particular facility are not exposed to unacceptable levels of contaminants.
Land Use Controls	Environmental covenants and deed restrictions placed on property to prevent contact with contamination that is left at the site.
Lead Agency	The entity that is performing the response actions. This could be EPA, DEP or the responsible parties (e.g., property owner, operator of facility, generators of waste disposed) as defined under federal law.
LNAPL	Light non-aqueous phase liquid is a groundwater contaminant that is not soluble in water and has a lower density than water.
MCLs	Maximum Contaminant Levels established by EPA or DEP
MSA	Multi-Site Agreement Medium-Specific Concentrations (in soil and groundwater) established by DEP
MSCs	
NESHAP N/F	National Emissions Standards for Hazardous Air Pollutants No estimate
N/E	No estimate
N/E NOPA	No estimate Notice of Penalty Assessment (second level of enforcement action)
N/E NOPA NOV	No estimate Notice of Penalty Assessment (second level of enforcement action) Notice of Violation (first level of enforcement action)
N/E NOPA	No estimate Notice of Penalty Assessment (second level of enforcement action)
