- Four (4) copies of all submittals shall be addressed to the Mine Inspector.
- The Mine Inspector will forward all copies to the supervisor. All pages of the plan must be initialed and dated by the inspector. The inspector will provide justification for recommending approval, tentative approval, or denial in a memo to the Bureau Director. All plans submitted per Article IV must be reviewed by the diesel/electrical inspector and the same procedure followed.
- The supervisor(s) will review and forward all copies to the New Stanton office, along with comments in a memo to the Bureau Director.
- Engineering will review and provide comments in a memo to the Bureau Director and forward to the Division Chief.
- Division Chief will review and forward along with comments in a memo to the Bureau Director.
