Re: **ENGINE MFG:** DEUTZ **MODEL:** BF4L 2011  
**PA VENTILATION RATE:** 6,000 CFM **HP:** 78  
**EMISSION SYSTEM TYPE:** DBT MANAGEMENT SYSTEM  
**APS ID NO.:** 787601  
**APPROVAL OF BOTE-DEES NO.:** 100-12

Dear Mr. Somogyi:

We have completed our evaluation of the equipment noted above, and approve its use in all bituminous underground coal mines of Pennsylvania. The equipment meets the legal requirements of the *Pennsylvania Bituminous Coal Mine Act*.

Pennsylvania approval number **BOTE-DEES 100-12** has been assigned to the equipment. This number along with the ventilation rate are to be stamped on a 2" x 4" rust-resistant metal plate, or any other Bureau acceptable material, attached to the engine in a place that is easily visible for inspection. The approval plate should read "**Commonwealth of Pennsylvania**", "**Approval No. BOTE-DEES 100-12**", and "**PA Ventilation Rate 6,000 CFM.**" The plate and lettering should be resistant to removal by abrasion.

If you want to make changes or alterations on this equipment, a written request outlining the proposed changes, together with any related prints or drawings, must be submitted to this office for approval. If you have any questions, please contact me at the below telephone number.

Sincerely,

  
Joseph A. Scaffoni  
Director  
Bureau of Mine Safety
