VENTILATION RATE 2305 cfm

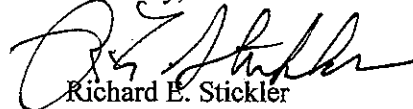

Dear Mr. Lovern:

We have completed our evaluation of the equipment noted above, and approve its use in all bituminous underground coal mines of Pennsylvania. The equipment meets the legal requirements of the *Pennsylvania Bituminous Coal Mine Act*.

Pennsylvania approval number BOTE-D 1892-02 has been assigned to the equipment. This number must appear conspicuously on the outside of the subject equipment on a 2" x 4" rust-resistant metal plate. The approval plate should read "Commonwealth of Pennsylvania" and "Approval No. BOTE-D 1892-02." The plate and lettering should be resistant to removal by abrasion. The Pennsylvania ventilation rate is 2305 cfm for this engine. This ventilation rate should be stamped on the approval plate with the BOTE-D number. The general specification sheet for UT742 Utility Tractor must be strictly adhered to.

If you want to make changes or alterations on this equipment, a written request outlining the proposed changes, together with any related prints or drawings, must be submitted to this office for approval. If you have any questions, please contact me at the above telephone number.

Sincerely,

Richard E. Stickler
