<b>Well Operator's Signature</b>  _____  Date _____		Title _____  Reviewed by _____ Date _____  <input type="checkbox"/> Other		

## POST- PLUGGING WELL SITE RESTORATION REPORT INSTRUCTIONS (Unconventional Operations Only)

The following instructions are designed to assist the applicant in properly completing the *Post-Plugging Well Site Restoration Report*, form 8000-FM-OOGM####U. If more room is needed to complete any section, provide the information on 8 ½ by 11 inch sheets of paper and attach to this form. Indicate the sections for which the information applies. Pursuant to 25 Pa. Code Section 78a.65(f) (relating to Site Restoration) operators must submit a well site restoration report.

### SECTION A. OPERATOR AND WELL INFORMATION

Enter the well operator name, contact name, address, and telephone and fax number.

Provide the requested well information. If this report is being prepared for a single well pad, provide the well pad name and number; US well number; Erosion Sediment Control General Permit (ESCGP) number if applicable; county and municipality of the well pad. If this report is being prepared for a multi well pad, provide the same information along with the US well number for the final well plugged and the date of the plugging of the final well.

### SECTION B. OFFSITE WASTE DISPOSAL OR RE-USE

All waste reporting, including disposal of the free liquid fraction removed from waste disposed onsite should be completed using the Oil and Gas Reporting Electronic (OGRE) application. Provide the date of the most recent waste report submitted to OGRE.

### SECTION C. SITE RESTORATION

Check all boxes that apply to confirm that earth disturbance activities are completed; site restoration, including installation of any post construction stormwater management (PCSM) best management practices (BMP); and permanent stabilization have been established as required by Section 78a.65.

- 1) All construction and building materials, equipment, supplies, debris, or any other material remaining from the oil and gas operations have been removed from the site.
- 2) Backfilling and grading of the entire site to return all disturbed areas to approximate original conditions has been completed; (must check if operator has completed permanent site stabilization in box 3, however, it may not be checked if operator is implementing PCSM BMPs and has checked box 4.
- 3) All areas of earth disturbance have been permanently stabilized in accordance with the requirements of Section 78a.65 and 25 Pa. Code Section 102.22.
- 4) Any remaining impervious areas are tributary to PCSM BMPs. All PCSM BMPs remaining on site must be included in the *Landowner Consent of Responsibility for Well Site Restoration*, form 8000-FM-#### (16).

Enter the acres of the well site that, although restored, will not be immediately available for agricultural use, agricultural reserve, or forest reserve under The Pennsylvania Farmland and Forest Land Assessment Act of 1974 (72 P. S. § § 5490.1—5490.13) (“Clean and Green Act”); include roadway, pad areas, and related compressor station areas.

The operator must sign and date the form in the space provided.

The report is to be filed with the Pennsylvania Department of Environmental Protection (DEP) within 60 days of the restoration of the well site at the appropriate oil and gas district office, listed below. Submit the *Post-Plugging Well Site Restoration Report* form to the appropriate DEP oil and gas district office:
