## BORROW PIT REGISTRATION INSTRUCTIONS

### (Unconventional Operations Only)

The following instructions are designed to assist the applicant in properly completing *Borrow Pit Registration* form, 8000-FM-OOGM0141U. Please type or print clearly when completing the form. If the information requested involves more than the space allows, copy the form and complete as required. Pursuant to 25 Pa. Code Section 78a.67 existing borrow pits must be registered with the Department of Environmental Protection (DEP).

#### A. BORROW PIT OWNER IDENTIFICATION

Enter the information as required: borrow pit owner name, address, telephone number, fax number, DEP ID or OGO number. The DEP ID No. is the applicant's unique eFACTS identification number provided by DEP.

#### B. BORROW PIT INFORMATION

Check whether the borrow pit is new or existing. Existing borrow pits must register within 60 calendar days of promulgation of 25 Pa. Code Section 78a.67. Enter the information as required: township, county and latitude and longitude. Provide the true latitude and longitude in decimal degrees. This should be North American Datum of 1983 (NAD83) and must meet the current DEP policy regarding locational accuracy.

Include US well or API numbers for all wells currently serviced by the borrow pit. Do not include wells that are not yet drilled or permitted (do not yet have API numbers). If the borrow pit services additional wells in the future, the information required in this section will need to be updated and submitted to the DEP. Borrow pits that are in place prior to Chapter 78a only need to include the API number of the most recently active well.

#### C. APPLICANT SIGNATURE

Provide the borrow pit owner printed name, signature, and date signed.
