

Oil and Gas Management

Online Mechanical Integrity Assessment Training Beattie No. 99 Example

PADEP: Bureau of Oil and Gas Planning and Program
Management

Division of Well Plugging and Subsurface Activities

Form A: Beattie No. 99 Example

Form A Use with Examples

- Beattie No. 99: Turn-of-the-20th century gas well with no well record available
- Only production casing accessible above grade; any other casing, if present, is outside wellhead and buried below grade

Form A: Beattie No. 99 Example

Sections 18 and 19: Confirm safe venting (if escaping gas is noted) and complete corrosion inspection

Section 13: Primary Production Gas Pressure (measured inside primary production casing)

Sections 15, 16, and 17: Inspect for surface discharges/annular flows of gas, liquid hydrocarbons, or non-freshwater
