Dear Ms. Pejatovic,

The Department of Environmental Protection (DEP) has reviewed the above referenced application package for completeness. The completeness review is the first step in a series of reviews conducted by DEP.

DEP has determined that the application contains sufficient detail to enable DEP to conduct the technical review and has been accepted for that purpose.

This is not a final action by DEP on this application. The completeness review is the first in a series of reviews conducted by DEP. The application will now move to the technical review stage of the permit review process. During the technical review, the adequacy of the application and its components will be evaluated to determine if sufficient information exists to render a decision on the technical merits of your application.

Per the Permit Decision Guarantee, complex projects may be handled outside of the typical Permit Review Process and Standard Operating Procedure timeframes. As such, the Conservation Districts and DEP will continue to synchronize the technical reviews of all permit applications/registrations (Chapter 102, 105, and SWQC) for this project.

I hope you find this information helpful in understanding the permit review process. If you have additional questions about your application, please contact Nick Rossi at 717.772.5667 or nicrossi@pa.gov and refer to the Application Number referenced above. You may also follow

your application through the review process please visit *eFACTS on the Web* at:
