

Reciprocity for February 6, 2009 Board Meeting

Wastewater

Mr. Kiran Pathak is requesting reciprocity for a WW(?) 1, 3 certificate from Delaware. His certification as a Wastewater Operator Class IV is valid through June 1, 2010. He worked at a Class A plant with WW1 and WW3 experience for 9 years from April, 1990 to April, 1999.

Through the same Delaware certificate submitted for his current request, Mr. Pathak was previously granted reciprocity for an SA1 wastewater certificate on June 25, 1998. Mr. Pathak is not in EFACTS; therefore, it is likely his certificate expired from failure to renew.

Should Mr. Pathak be granted a second reciprocity for a WWA1 & 3?

Water

John Callahan holds a valid Water Supply Operator license in Delaware that expires 9/10/09. He has 5 year 6 months experience working for the Lewes Board of Public Works. This is a Class BE system with subclasses 8, 11 and 12.

The Board should issue a WBE 8,11,12 certificate.
