**RE: RUTTERS #82 – WASTE HAUL ROAD
MAJOR MODIFICATION – PERMIT NO. PAD070014A-1
ANTIS TOWNSHIP, BLAIR COUNTY, PA**

Dear Mr. Weyant:

On behalf of M&G Realty, Inc., we are submitting additional information relating to the above referenced project, regarding a Technical Deficiency comment received on August 2, 2023.

A Major Modification was submitted for the Rutters #82 Chapter 102 NPDES permit, permit no. PAD070014, to add a haul road in order to transport waste material from the excavated site. The waste material will be deposited to the adjacent Oak Grove Partnership Grading Project site. This site is covered under a previously issued Chapter 102 NPDES Permit, permit no. PAD070017.

A Permit Transfer was also completed for the Oak Grove Partnership Grading Project site, under permit no PAD070017A-1. Ownership of the site was transferred from the original client, Mr. Gregory Wharton, to Curry Excavating, Inc., who is the current contractor for the Rutters #82 site.

Enclosed please find the following documents concerning the Oak Grove Partnership Grading Project site:

- E&S Plan Set
- PCSM Plan Set
- Chapter 102 Individual NPDES Permit Issuance
- Permit Transfer Acknowledgement Letter

Please contact me at 814-696-7430 or hhenry@keller-engineers.com if you have any questions or would like additional information.

Sincerely,

Haylee N. Henry
Environmental Scientist
