Scott,

At the request of our contractor, we have submitted a Major Modification to our permit for the Rutter's 82 project in Antis Township, Blair County. The Major Mod application has been determined as administratively complete and the entire submittal has been uploaded to the DEP OnBase system. The purpose of this modification is to construct a temporary haul road across our property to the adjacent fill site (there is an existing NPDES permit for that site). If there is any way the Department could expedite their review of this Major Modification, we would appreciate it. Currently the excess material is being loaded onto dump trucks and hauled on the public roadways to the same fill site. By constructing the haul road, thousands of truck trips will be eliminated from the local roadways improving safety for the general public. Additionally, by keeping the large number of trucks from leaving our property, the potential for an accidental erosion/sedimentation pollution event will be greatly reduced.

Thank you for your consideration.
