**Re: Sunoco Pipeline L.P. – Pennsylvania Pipeline Project (Mariner East II)
HDD S3-0290 – Withdrawal of HDD Restart Reports and
Minor Permit Modification Submittals**

Dear Mr. Hohenstein:

As you are aware, on December 6, 2021 Sunoco Pipeline L.P. (“SPLP”), the Department, and DCNR entered into a Consent Order and Agreement (“COA”) for the HDD S3-0290 work location in Upper Uwchlan Township, Chester County (“HDD 290”). On December 6, 2021, the Department also issued Major Amendments of the Chapter 102 and Chapter 105 permits for the HDD 290 work location, for the change in the installation method of the 20” pipeline from HDD to an open cut/trench construction.

Pursuant to paragraph 3.b of the COA, this correspondence serves as a formal withdrawal of the following submissions previously made to the Department for the HDD 290 work location:

- HDD Restart Report (dated August 17, 2020)
- Amended HDD Restart Report (dated November 20, 2020, submitted November 23, 2020)
- Minor Modification Request for Chapter 102 Permit No. ESG0100015001 and Chapter 105 (Permit No. E15-862) (dated November 23, 2020)

If you have any questions or need additional information, please contact me at (570) 505-3740 or via email at Nick.Bryan@EnergyTransfer.com.

Thank you,

Nicholas J. Bryan, P.L.S.
Sr. Director – E&C Environmental
