Re: Keystone Metals Reduction Site  
Cheswick Borough  
Allegheny County  
LRP No. 5-2-807-19269

Dear Mr. Watson:

This letter serves as notification that the Pennsylvania Department of Environmental Protection will undertake an investigation at the above referenced Site.

Pursuant to Section 501(e) of the Hazardous Sites Cleanup Act, Act of October 18, 1988 (P.L. 756, No. 108), 35 P.S. Section 6020.501(e), the Department is required to provide notice of this action to the owner or operator of the property on which the Site is located.

The Department has determined that you may be the owner of property that makes up a portion of the Keystone Metals Reduction Site, located on a portion of the 1000 block of Pittsburgh Street in Cheswick Borough. The Department's action at this site will involve an investigation to determine if radioactive materials from the production of radium have been disposed at the location of the former Keystone Metals Reduction Facility.

This letter is not a final action by the Department, nor is any action being requested of you by this letter.

As per our recent telephone conversation, enclosed is an Access Agreement for your review and signature. If you have any questions regarding the access agreement or this notice, please call Dawna Saunders at 412-442-4347.

Mr. Eddie Watson

Also enclosed is a memo dated November 16, 2010 detailing the results of a scoping survey conducted by the Department's Radiation Protection Program on your property. Please address any questions regarding this memo to Robert Maiers who can be contacted at 717-783-8979.

Sincerely,

A handwritten signature in cursive script that reads "Barbara Gunter".

Barbara Gunter  
Environmental Group Manager  
Hazardous Sites Cleanup Program
