

Commonwealth of Pennsylvania
Department of Environmental Protection
Bureau of Safe Drinking Water
Division of Training, Technical and Financial Services

**State FY 2019-2020 Intended Use Plan
Drinking Water State Revolving Fund
Workplan for the Use of Set-Aside Funding
Under Sections 1452 (G) and 1452 (K)
of the Federal Safe Drinking Water Act**

Workplan Submitted to EPA: TBD
Approved by EPA: TBD
Public Comment Period Closed: TBD

INTRODUCTION

This document serves as a workplan that identifies Pennsylvania's intended uses of Drinking Water State Revolving Fund (DWSRF) program support set-aside funds, under Sections 1452(g) and 1452(k) of the 1996 Amendments to the Federal Safe Drinking Water Act (SDWA). This is a multi-year, multi-grant workplan that addresses spending of federal DWSRF set-aside funds. The elements of this workplan are expected to continue into the foreseeable future, regardless of the fiscal year in which set-aside funds are used. As these elements are carried out, available set-aside funds will be drawn down through the EPA automated clearing house process. The Department of Environmental Protection (DEP) intends to expend 100% of the set-aside funds within two years of award unless EPA approves a third year on an exception-only basis. As Pennsylvania applies for future set-aside funds, certain aspects of this workplan will be revised to reflect completion of previously funded activities, or new/revised activities to meet requirements. If there is a need to significantly revise any elements, these revisions will be subject to public review and comment, followed by EPA review, prior to implementing any changes. Such changes will be handled as a formal amendment to the capitalization grant agreement.

By providing updates in the "Status/Comments/Obstacles" column, this document also serves as a progress report that identifies accomplishments over the past six months and projected activity levels for the next six months. Timeframes indicated for hiring staff and carrying out other elements of this work plan are generally expressed as seasons of the year, to be interpreted as follows: Winter = January-March; Spring = April-June; Summer = July-September; and Fall = October-December.

An addendum to the workplan contains the following additional details:

- A description of the relationship to the Public Water System Supervision program grant;
- A summary of changes to the workplan from the previous fiscal year;
- The level of detail provided to remain consistent with EPA's guidance;
- Comments on the evaluation of outputs and outcomes;
- A description of the major areas addressed;
- A funding and workplan summary that further describes categorical spending of set-aside funds;
- An overall spending plan summary that aggregates the individual categorical set-aside spending summaries;
- A summary on state use of prior years' unliquidated obligations; and
- A list of completed and cancelled contracts and grants.

Appendices for each set-aside category are provided in a separate Excel spreadsheet file. Appendix A provides an overall spending plan summary and Appendix B provides a summary of equipment purchases and projected travel expenses. Additional details on activity outputs, deliverables, and timeframes are contained in the contracts and grant agreements with sub-recipients of set-aside funds.

Other elements of Pennsylvania's Safe Drinking Water Program are included in DEP's Public Water System Supervision grant workplan, including but not limited to surveillance, compliance and enforcement, data management, and new regulation development. Additionally, in conformance with EPA's *Policy to Assure the Competency of Organizations Generating Environmental Measurement Data under Agency-Funded Assistance Agreements* (FEM-2012-02), DEP maintains and implements a Quality Management Plan (QMP) and Quality Assurance Project Plans (QAPP) and uses environmental data in accordance with its approved QMP and QAPPs. DEP's Bureau of Laboratories also maintains accreditation and certifications under the National Environmental Laboratory Accreditation Program and therefore meets the laboratory certification requirements of the Safe Drinking Water Act.

TECHNICAL ASSISTANCE TO SMALL SYSTEMS—1452(g)(2) 2%

These set-aside funds will be used to enhance ongoing program efforts, primarily related to capability enhancement. The funds need not be matched with state resources.

DEP is requesting EPA approval of preaward costs starting on July 1, 2019 (less than 90 days). Re-budgeting of prior year grants to accelerate draws at EPA's request has caused a shortfall this year. Approval of preaward costs will allow the program to continue operations without interruption.

PA DEP DWSRF SET-ASIDES TECHNICAL ASSISTANCE TO SMALL SYSTEMS—1452(g)(2) 2% These set-aside funds will be used to enhance ongoing program efforts, primarily related to capability enhancement. These funds need not be matched with state resources.			
Work Plan Component, Program, and Mechanism: Capability Enhancement; Capability Enhancement Program; Staffing			
Grant or Contract Recipient: Not applicable		EPA Contact(s): Kelly Moran	
		State Contact(s): Mark Billus	
Program Goal: Program development, administration, and assistance and outreach to small water systems. DEP will conduct the Technical, Managerial, and Financial (TMF) portion of the on-site assessment.			
Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
<p>The elimination of public water systems (PWS) that are not technically, managerially, or financially capable to operate in compliance with all drinking water regulations through the consolidation with another system.</p> <p>The elimination of PWSs that are not technically, managerially, or financially capable to operate in compliance with existing and new drinking water regulations through the design and construction of needed PWS upgrades and the improvement of system staff capabilities.</p> <p>A decrease in the number of high priority PWSs as identified by the Capability Enhancement Program priority process.</p>	<p>Three FTEs located in the DEP Offices as follows:</p> <ul style="list-style-type: none"> • Capability Enhancement Facilitator (CEF)—Northeast Regional Office (covers Northeast and Northcentral Regions) • CEF—Cambria District Office (covers Northwest and Southwest Regions) • CEF—Southcentral Regional Office (covers Southeast and Southcentral Regions) <p>Time code: 38337</p> <p>Staff hours budgeted for this fiscal year: 4,890</p>	<p>OUTPUTS:</p> <p>The annual Capability Enhancement Report is due by September 15 of each year.</p> <p>Prepare annual priority ranking based on system capability. The Priority Ranking System is used to identify public water systems having capability weakness, measure individual system improvements, and gauge the overall success of our technical, managerial, and financial assistance efforts.</p> <p>Select priority water systems from either the Priority Ranking System or referrals from field offices to provide TMF assistance. This includes:</p> <ul style="list-style-type: none"> • Reviewing TMF questionnaire • Conducting onsite assessment • Preparing Action Item Plan • Preparing written reports as necessary • Identifying assistance resources • Facilitating CEF assistance, Professional Engineering Services (PES) assistance, or assistance through the Outreach Assistance Provider Program (OAPP) if the system is willing to work toward addressing capability weaknesses. <p>Evaluate applicants for DWSRF funding to ensure that they are TMF capable.</p> <p>Travel and attendance for all FPPE Meetings, one technical conference per FTE, and the National Cap Dev/Op Cert Workshop.</p>	<p>Staff hours charged fiscal year to date:</p> <p>Noteworthy activities for the past six months:</p> <p>Projected activities for the next six months:</p> <p>Obstacles</p>

PA DEP DWSRF SET-ASIDES
TECHNICAL ASSISTANCE TO SMALL SYSTEMS—1452(g)(2) 2%
 These set-aside funds will be used to enhance ongoing program efforts, primarily related to capability enhancement. These funds need not be matched with state resources.

Work Plan Component, Program, and Mechanism:
 Capability Enhancement; Small Systems Managerial and Financial Capability Enhancement Program (Professional Engineering Services); Contracts

Grant or Contract Recipient: Uni-Tec Consulting Engineers, Inc.	EPA Contact(s): Kelly Moran	State Contact(s): Woody Cole
---	---------------------------------------	--

Program Goal:
 To provide services to public water systems that include but are not limited to: professional engineering design and permitting assistance, professional geologist assistance, feasibility studies, legal assistance, leak detection, and assistance with preparing grant and funding applications. These services are in support of improving long term sustainability, implementation of capital improvements, regionalization and consolidation concepts where appropriate. This work plan component does not include construction costs related to capital improvements.

Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
<p>The elimination of public water systems (PWS) that are not technically, managerially, or financially capable to operate in compliance with all drinking water regulations through the consolidation with another system.</p> <p>The elimination of PWSs that are not technically, managerially, or financially capable to operate in compliance with existing and new drinking water regulations through the design and construction of needed PWS upgrades and the improvement of system staff capabilities.</p> <p>A decrease in the number of high priority PWSs as identified by the Capability Enhancement Program priority process.</p>	<p>Project begins: July 1, 2016</p> <p>Project ends: June 30, 2021 (annual renewal clause)</p> <p>Estimated expenditures under this contract during the fiscal year: \$300,000</p>	<p>OUTPUTS:</p> <p>Project summaries for each completed project will be included as part of the semi-annual progress reports.</p> <p>Success stories will be included in the Capability Enhancement Program Annual Report.</p> <p>Implement the Priority Ranking System. See the section of the workplan titled “Capability Enhancement Program; Staffing.”</p>	<p>Actual expenditures fiscal year to date:</p> <p>Noteworthy activities for the past six months:</p> <p>Projected activities for the next six months:</p> <p>Obstacles:</p>

PA DEP DWSRF SET-ASIDES TECHNICAL ASSISTANCE TO SMALL SYSTEMS—1452(g)(2) 2% These set-aside funds will be used to enhance ongoing program efforts, primarily related to capability enhancement. These funds need not be matched with state resources.			
Work Plan Component, Program, and Mechanism: Capability Enhancement; Equipment and Supplies			
Grant or Contract Recipient: Not applicable		EPA Contact(s): Kelly Moran	
		State Contact(s): Crystal Blair / Kevin Anderson	
Program Goal: To provide equipment and supplies in support of DEP staff whose positions are funded out of the 2% set-asides.			
Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
<p>The elimination of public water systems (PWS) that are not technically, managerially, or financially capable to operate in compliance with all drinking water regulations through the consolidation with another system.</p> <p>The elimination of PWSs that are not technically, managerially, or financially capable to operate in compliance with existing and new drinking water regulations through the design and construction of needed PWS upgrades and the improvement of system staff capabilities.</p> <p>A decrease in the number of high priority PWSs as identified by the Capability Enhancement Program priority process.</p>	<p>See Appendix B. A separate spreadsheet is provided that lists all the anticipated equipment and supplies purchases. If additional equipment or supplies is needed, the procedure for pre-approval of these purchases by EPA will be followed.</p> <p>A summary and justification for the supplies and equipment is included in the adjacent column.</p>	<p><u>Vehicles</u></p> <p>Capability Enhancement Facilitators: The vehicles assigned to the three existing Capability Enhancement Facilitators in the Southwest, the Northeast, and Southcentral Regional Offices were bought in previous years. Ongoing costs for these vehicles will be limited to operation and maintenance. These vehicles require periodic replacement. Two CEF vehicles located in the Northeast and Southwest Regions have high mileage and will be replaced during FY 19/20 at a cost of \$56,000.</p> <p>Justification: These vehicles are needed by the facilitators to accomplish the goals of the program by traveling to different systems in six different DEP regions.</p> <p><u>Supplies and Equipment</u></p> <p>In FY 19/20, 1000 copies of PA Code Chapter 109 will be printed at an estimated cost of \$18,000 and will be used to assist small water systems with complying with new safe drinking water requirements related to Disinfection Requirements Rule and Chapter 109 General Update and Fees Rule.</p> <p>In FY 19/20, the Capability Enhancement Program will print and mail PES Program brochures to inform small systems of the professional engineering assistance that is available through the PES Program. The cost of printing and mailing is estimated to be \$1,500.</p> <p><u>Personal Computers</u></p> <p>In previous years, laptop/desktop computers, docking stations and monitors were bought for staff funded in this workplan. DEP's replacement protocol involves a five-year rotating timeframe. During FY 19/20, the Department plans to purchase a replacement laptop computer for the Capability Enhancement Facilitator located in the Southwest Region at a cost of \$2000.</p>	<p>Vehicles and computers purchased during the past six months:</p> <p>Projected purchases for the next six months:</p>

ASSISTANCE TO STATE PROGRAMS—1452(g)(2) 10%

These set-aside funds will be used to enhance ongoing program efforts relative to source water assessment and protection, capability enhancement, and operator training and certification. Starting in FY '06-07, a significant amount of the funds in this category is devoted to enhancing PWSS grant activities. Additionally, protecting water sources from contamination reduces the technical complexity and financial investment in required treatment facilities. In this regard, source water protection helps meet the system capability enhancement objective of achieving technical, managerial, and financial capability at small public water systems. Note that the indicated source water protection activities are considered Categorically Green Infrastructure Projects.

DEP is requesting EPA approval of preaward costs starting on July 1, 2019 (less than 90 days). Re-budgeting of prior year grants to accelerate draws at EPA's request has caused a shortfall this year. Approval of preaward costs will allow the program to continue operations without interruption.

PA DEP DWSRF SET-ASIDES ASSISTANCE TO STATE PROGRAMS—1452(g)(2) 10% These set-aside funds will be used to enhance ongoing program efforts relative to source water assessment and protection, capability enhancement, and operator training and certification.			
Work Plan Component, Program, and Mechanism: Source Water Protection (categorically green project); Source Water Assessment and Protection Program; Staffing			
Grant or Contract Recipient: Not applicable		EPA Contact(s): Kelly Moran	State Contact(s): Patrick Bowling
Program Goal: Program development, administration, and implementation of DEP’s Source Water Assessment and Protection Program (including the Wellhead Protection Program) to protect public water system sources and achieve reduced risk to public health. Emphasis is on increasing the number of systems, particularly smaller systems, that are undertaking local source water protection (SWP) efforts through various initiatives including outreach, technical assistance by partners and participation in collaborative SWP partnerships/coalitions. Additionally, tracking the development and implementation of local SWP programs and promoting/facilitating program coordination/integration to support local SWP programs are objectives. Efforts to fully implement the program, including the achievement of national goals for SWP, are discussed annually in a general strategy meeting that covers initiatives undertaken by both DEP staff and partnering organizations to promote the concept of SWP and to increase participation by water systems.			
Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
Percent of community water systems that achieved minimized risk to public health through substantial implementation of a source water protection strategy. Percent of community water systems that have source water protection strategies in place.	Three FTEs located in the DEP Central Office, Bureau of Safe Drinking Water, Harrisburg. Time code: 38332 Staff hours budgeted for this fiscal year: 4,890	OUTPUTS: Management of 35 active projects for source water protection plan development under the Source Water Protection Technical Assistance Program (contracted services). Support the development and implementation of regional and interstate source water protection initiatives. Support development of local source water protection (strategy) program for 6% of community water systems without a plan. 80% of the source water protection plans submitted for review and approval each year are finalized. A summary of progress made and finalized work products will be included in the semi-annual progress report.	Staff hours charged fiscal year to date: Noteworthy activities for the past six months: Projected activities for the next six months: Obstacles:

PA DEP DWSRF SET-ASIDES ASSISTANCE TO STATE PROGRAMS—1452(g)(2) 10% These set-aside funds will be used to enhance ongoing program efforts relative to source water assessment and protection, capability enhancement, and operator training and certification.			
Work Plan Component, Program, and Mechanism: Source Water Protection (categorically green project); Water Resource Planning Initiative; Staffing			
Grant or Contract Recipient: Not applicable		EPA Contact(s): Kelly Moran	
		State Contact(s): Susan K. Weaver	
Program Goal: The goal of the Water Resource Planning Initiative is to assure that current and future water use, water allocation, and instream needs are consistent with the availability of Pennsylvania’s surface and groundwater resources. This goal relates to source water planning and implementation by considering the water quantity necessary to protect drinking water sources from contamination due to source water diminution. The Division focuses on a multitude of initiatives including Water Allocation Permitting of PWS surface water withdrawals, permitting of PWS groundwater withdrawals, coordination of PWS withdrawals with the Susquehanna and Delaware River Basin Commissions, management of the Statewide Fixed Station Groundwater Quality Monitoring Network and management of the Statewide Stream Gaging and Groundwater Level Monitoring Network. One technical staff member within the Division coordinates activities involving the statewide effort of coordinating groundwater and surface water withdrawals and management of the Groundwater Quality Monitoring Network and the Stream Gaging and Groundwater Level Network. This position also coordinates activities related to support and development of watershed-based source water protection efforts.			
Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments

Work Plan Component, Program, and Mechanism: Operator Certification and Training; Outreach Assistance Provider Program (OAPP); Subsidies			
Grant or Contract Recipient: Not applicable		EPA Contact(s): Kelly Moran	
		State Contact(s): William McNamara/Dennis Harney	
Program Goal: This program utilizes part-time wage payroll instructors to provide Technical, Managerial and Financial (TMF) assistance to water system owners and operators. The program responds to training needs for operator certification and system needs identified by the Capability Enhancement Program’s Professional Engineering Services Program, Priority Ranking System, and TMF assessment. The program also responds to needs identified by DEP regional staff, local government associations, or the water system. Technical assistance occurs through a combination of water videos, classroom and web-based training, and one-on-one assistance to address system operational problems. In addition, the financial and managerial assistance includes the development of appropriate rate structures, business plans and long-term budgets, and assistance to implement asset management programs. Wage payroll instructors are assigned to provide onsite assistance through classroom training or at each outreach site.			
Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments

Work Plan Component, Program, and Mechanism: Operator Certification and Training; Operator Training and Certification Administration Program; Staffing			
Grant or Contract Recipient: Not applicable		EPA Contact(s): Kelly Moran	
State Contact(s): William McNamara / Cheri Sansoni			
Program Goal: To administer operator certification exams, process applications for certification, certificate upgrade and certificate renewals, provide outreach assistance to operators, to develop training courses for operators in classroom and web-based formats, implement the Training Approval Process Program, and develop and implement the regulatory administrative requirements of the Operator Certification Program.			
Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
Percent of systems in compliance with operator certification requirements. Number of continuing education hours delivered.	Three FTEs located in the DEP Central Office, Bureau of Safe Drinking Water, Harrisburg. Time code: 38338 Staff hours budgeted for this fiscal year: 4,890	OUTPUTS: Review approximately 175 applications for training sponsors, course approval, post presentation credit, and conferences. Manage data for approximately 19,000 operator course completions. Administer 41 certification examinations to approximately 1750 water and wastewater examinees, process 1,300 applications for water and wastewater certification or certificate upgrade, and 3,000 applications for water and wastewater certificate renewal. Develop classroom and web-based course materials for regulatory initiatives and operator certification exam preparation. Through technical assistance and enforcement efforts, ensure a 5 – 10% increase in the number of systems in compliance with the operator certification program. Maintain the Earthwise Academy and eFACTS. Administer 29 electronic certification examinations for 421 seats	Staff hours charged fiscal year to date: Noteworthy activities for the past six months: Projected activities for the next six months: Obstacles:

PA DEP DWSRF SET-ASIDES ASSISTANCE TO STATE PROGRAMS—1452(g)(2) 10% These set-aside funds will be used to enhance ongoing program efforts relative to source water assessment and protection, capability enhancement, and operator training and certification.			
Work Plan Component, Program, and Mechanism: Operator Certification and Training; Operator Certification Program Compliance; Staffing			
Grant or Contract Recipient: Not applicable		EPA Contact(s): Kelly Moran	
		State Contact(s): Jeffrey Allgyer	
Program Goal: The goal of the Operator Certification Program is for all community and nontransient noncommunitiy (NTNC) water systems to have an operator with the appropriate certification level. The first task is to improve operators' knowledge, skills, and abilities to maximize public health protection, compliance, and system operation. Water system capability and sustainability issues can then be identified and addressed, since hiring a certified operator requires sufficient revenues for salary and a qualified operator that understands the physical aspects of the system. The Operator Certification Program compliance/enforcement approach is designed to enlist the cooperation and commitment of the water system owners and operators in properly addressing and resolving compliance issues. Owners and/or operators not in compliance will be encouraged to meet applicable technical, operational and administrative requirements through training, technical assistance, and oversight working with the Capability Enhancement Program. When assistance efforts do not improve compliance rates, the implementation of a compliance and enforcement strategy will begin.			
Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
Percent of systems in compliance with operator certification requirements. Number of continuing education hours delivered.	One FTE located in the DEP Central Office, Bureau of Safe Drinking Water, Harrisburg. Time code: 38338 Staff hours budgeted for this fiscal year: 1,630 (WPS-Operations Section)	OUTPUTS: A five to ten percent increase per year in the number of systems in compliance with the requirements of the operator certification program. A summary of progress made and finalized work products will be included in the semi-annual progress report.	Staff hours charged fiscal year to date: Noteworthy activities for the past six months: Projected activities for the next six months: Obstacles:

Work Plan Component, Program, and Mechanism: Operator Certification and Training; eFACTS Enhancements; Contracts			
Grant or Contract Recipient: Computer Aid, Inc.		EPA Contact(s): Kelly Moran	
		State Contact(s): Jeffrey Allgyer/William McNamara	
Program Goal: In addition to PADWIS, DEP uses eFACTS, a centralized data management system for all programs, to track permit and enforcement activities as well as certificates for the operation of drinking water and wastewater systems. In addition to routine maintenance and technical support, modifications and enhancements to eFACTS are needed for the implementation of the Operator Certification Program. This include electronic invoicing and tracking of operator certification fees, and a revision to the cross-walk from water and wastewater facility treatment details to the required operator class and subclass(es).			
Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
Percent of systems in compliance with operator certification requirements. Number of continuing education hours delivered.	Computer Aid, Inc. is the Commonwealth's staff augmentation contractor and is currently used by DEP's Bureau of Information Technology to enhance and develop eFACTS. This project is ongoing. Estimated expenditures under this contract during the fiscal year: \$50,000	OUTPUTS: Electronic invoicing and tracking of fees. Automated determination of the required operator class and subclass(es) based on treatment facility and process details currently maintained in DEP data systems.	Actual expenditures fiscal year to date: Noteworthy activities for the past six months: Projected activities for the next six months: Obstacles:

PA DEP DWSRF SET-ASIDES ASSISTANCE TO STATE PROGRAMS—1452(g)(2) 10% These set-aside funds will be used to enhance ongoing program efforts relative to source water assessment and protection, capability enhancement, and operator training and certification.			
Work Plan Component, Program, and Mechanism: Capability Enhancement; Drinking Water System Compliance Assistance Program; Staffing			
Grant or Contract Recipient: Not applicable		EPA Contact(s): Kelly Moran	State Contact(s): Jeffrey Allgyer / William McNamara
Program Goal: In order to meet the requirements of safe drinking water regulations—including the Arsenic Rule, Stage 2 - Disinfectant/Disinfection Byproducts Rule, Long Term 2 Enhanced Surface Water Treatment Rule, Groundwater Rule, Lead and Copper Rule-Short Term Revisions, Revised Total Coliform Rule, etc.—PWSs need assistance in understanding monitoring and reporting requirements, how compliance is determined for each rule, what happens in the event of non-compliance, and what is required to return to compliance. PWSs also need to be kept apprised of potential simultaneous compliance issues related to the new or revised regulations. In addition, these new rules further increase the need for each PWS to have knowledgeable and certified drinking water system operators. To adequately cover the state, one to two additional environmental protection compliance specialists have been appointed in each of the six DEP regions. Staff ensure that the small systems are reached and properly trained within the short implementation time periods that often accompany a new or revised regulation. They also provide technical assistance where appropriate in dealing with systems having difficulty in meeting current regulatory requirements and work with DEP’s Capability Enhancement Program Facilitators.

Work Plan Component, Program, and Mechanism: Capability Enhancement; Pennsylvania Drinking Water Information System (PADWIS); Staffing			
Grant or Contract Recipient: Not applicable		EPA Contact(s): Kelly Moran	
		State Contact(s): Jason Minnich	
Program Goal: DEP uses PADWIS to maintain inventory data on all public water systems regulated by DEP, determine compliance with the Pennsylvania Safe Drinking Water Regulations, and meet EPA’s federal reporting requirements. Pennsylvania uses set-aside funds to support and enhance activities funded under the Public Water System Supervision grant. Staff maintain and update compliance programming for new reporting requirements and assist with the implementation of automated compliance systems for new regulations. Staff also initiate the compliance programming in PADWIS for the Stage 2 Disinfectants/Disinfection Byproducts Rule, Long Term 2 Enhanced Surface Water Treatment Rule, Lead and Copper Rule Short Term Revisions, Revised Total Coliform Rule, and the Cross-Media Electronic Reporting Regulation. In addition, as part of the mandatory electronic reporting requirements under the Chapter 109 General Update, staff support water systems and laboratories as they deal with regulatory and programmatic changes that impact our electronic reporting system. Staff provide updated laboratory and data management guidance documentation to assist staff and the regulatory community.

PA DEP DWSRF SET-ASIDES

ASSISTANCE TO STATE PROGRAMS—1452(g)(2) 10%

These set-aside funds will be used to enhance ongoing program efforts relative to source water assessment and protection, capability enhancement, and operator training and certification.

Work Plan Component, Program, and Mechanism:

Capability Enhancement; Pennsylvania Drinking Water Information System (PADWIS); Contracts

Grant or Contract Recipient:

OST, Inc.

EPA Contact(s):

Kelly Moran

State Contact(s):

Jason Minnich

Program Goal:

To provide SAS programming services as needed to meet primacy requirements and implement automated compliance systems for new regulations. These programming services include SAS and Java for regulation changes and web-based applications. DEP uses PADWIS, a customized online data management system, to maintain detailed information about all public water systems regulated by DEP, to determine compliance with the Pennsylvania Safe Drinking Water Regulations, and to meet the federal reporting requirements of the EPA. DEP uses the Drinking Water Electronic Laboratory Reporting (DWELR) application to acquire self-monitoring results from public water systems and their commercial laboratories.

Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
<p>Percent of population served by water supply systems that meet all health-based standards.</p> <p>The ability to relate community water system infrastructure between state and federal databases.</p> <p>Nationally consistent framework for community water system data.</p>	<p>Estimated expenditures under this contract during the fiscal year: \$750,000</p> <p>Utilize the Staff Augmentation Contract through BIT and OST to provide contractor services.</p>	<p>OUTPUTS:</p> <p>Completing the following compliance program revisions:</p> <ul style="list-style-type: none"> • Total Organic Carbon Program. • Changes needed for Significant Deficiency Tracking. • Disinfection Requirements Rule Revisions • General Update to Chapter 109 Compliance Program Revisions <p>Begin work toward migration to SDWIS PRIME</p> <p>Screen control language programming to enhance and modify database screens for transaction processing.</p> <p>Evaluating business processes to design, develop, and implement automated compliance determination systems.</p> <p>Designing, developing, and implementing the PADWIS interface with eFACTS and CLS Oracle.</p> <p>Maintaining batch processes to update PADWIS, eFACTS, and CLS.</p> <p>Changes to DWELR to improve the functionality and limit staff data entry.</p> <p>Development of additional E-inspection applications, and improvement of existing E-inspection applications as needed to maintain optimal functionality of SDW mobile inspection platform.</p>	<p>Actual expenditures fiscal year to date:</p> <p>Noteworthy activities for the past six months:</p> <p>Projected activities for the next six months:</p> <p>Obstacles:</p>

PA DEP DWSRF SET-ASIDES ASSISTANCE TO STATE PROGRAMS—1452(g)(2) 10%
 These set-aside funds will be used to enhance ongoing program efforts relative to source water assessment and protection, capability enhancement, and operator training and certification.

Work Plan Component, Program, and Mechanism:
 Capability Enhancement; Statewide Staff Training Conference; Contracts

Grant or Contract Recipient: To be determined each year through the Commonwealth’s procurement and bidding process.	EPA Contact(s): Kelly Moran	State Contact(s): William McNamara
---	---------------------------------------	--

Program Goal:
 Set-aside funds are used to supplement the expenses for a statewide training conference for DEP Safe Drinking Water Program staff. Funding for most expenses originates from the Public Water System Supervision grant and the state Safe Drinking Water Fund. This conference is offered annually, or every two years based on training needs. The conference is conducted to update staff on new regulatory initiatives, highlight new technical information, or address program compliance and data management issues. Sessions are two to three days long. Costs include the contract for the training site, including rooms and meals. Costs incurred for meals are part of a working session and in accordance with federal guidelines, GPI-11-02, “Best Practices Guidance for Allowability and Reasonableness of Certain Selected Items of Cost Under Assistance Agreements.” The final budget for the conference will be provided to EPA once the bids have been reviewed and a contractor selected.

Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
<p>Percent of population served by water supply systems that meet all health-based standards.</p> <p>The ability to relate community water system infrastructure between state and federal databases.</p> <p>Nationally consistent framework for community water system data.</p>	<p>Estimated set-aside expenditures under this contract during the fiscal year: \$11,880</p> <p>The total budget for this conference is \$36,000. 61 (33%) of DEP’s Safe Drinking Program positions are funded out of the set-asides. An estimated \$24,120 will be covered under the PWSS grant and through state special funds for non-set-aside positions.</p>	<p>OUTPUTS:</p> <p>Conduct a 2.5-day statewide training conference* for 190 DEP Safe Drinking Water Program staff to update staff on new regulatory initiatives, highlight new technical information, or address program compliance and data management issues. Attendees encompass the entire DEP drinking water program in the central and regional offices, including field inspectors, compliance specialists, permitting engineers, program specialists, and program managers.</p> <p>* NOTE: Set-aside grant funds will be used for light refreshments and meals served at these contracted staff training events. Generally, participating staff are given lunch and light refreshments, while breakfast and dinner are included for those on overnight status. Providing lunches in the contract allows a full agenda, including an 8 AM session start time and working lunch periods. This ensures that staff remain together during the workday to increase interaction and continue their discussion of issues. Likewise, morning and afternoon breaks with coffee, tea, milk, juice, soft drinks, donuts, bagels, fruit, pretzels, cookies, chips, or muffins will allow participants to remain in the primary training room during breaks and continue to network and discuss issues.</p>	<p>Actual expenditures fiscal year to date:</p> <p>Noteworthy activities for the past six months:</p> <p>Projected activities for the next six months:</p> <p>Obstacles:</p>

PA DEP DWSRF SET-ASIDES ASSISTANCE TO STATE PROGRAMS—1452(g)(2) 10% These set-aside funds will be used to enhance ongoing program efforts relative to source water assessment and protection, capability enhancement, and operator training and certification.			
Work Plan Component, Program, and Mechanism: Source Water Protection/Operator Certification/Capability Enhancement; Software Licenses (“Other” budget category), Equipment, and Supplies			
Grant or Contract Recipient: Not applicable		EPA Contact(s): Kelly Moran	State Contact(s): Crystal Blair / Jason Minnich / William McNamara / Kevin Anderson
Program Goal: To provide equipment and supplies in support of DEP staff whose positions are funded out of the 10% set-asides.			
Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
<p>Percent of community water systems (CWS) that achieved minimized risk to public health through substantial implementation of a source water protection strategy.</p> <p>Percent of CWSs that have source water protection strategies in place.</p> <p>Percent of systems in compliance with operator certification requirements.</p> <p>Number of continuing education hours delivered.</p> <p>Percent of population served by water supply systems that meet all health-based standards.</p> <p>The ability to relate CWS infrastructure between state and federal databases.</p> <p>Nationally consistent framework for CWS data.</p>	<p>See Appendix B. A separate spreadsheet is provided that lists all the anticipated equipment and supplies purchases. If additional equipment or supplies is needed, the procedure for pre-approval of these purchases by EPA will be followed.</p> <p>A summary and justification for the supplies and equipment is included in the adjacent column.</p>	<p><u>Personal Computers</u></p> <p>In previous years, laptop/desktop computers, docking stations and monitors were bought for staff funded in this workplan. DEP’s replacement protocol involves a five-year rotating timeframe. During FY 19/20, the Department anticipates that one laptop will need to be replaced due to unforeseen consequences for the Filter Plant Evaluation Program at a cost of \$2000. In addition, the Department plans to purchase a LCD projector at a cost of \$800 to be used by the SW regional FPPE program to present FPPE findings during FPPE exit meetings.</p> <p><u>Annual SAS License Renewals for PADWIS and DWELR</u></p> <p>DEP uses the Pennsylvania Drinking Water Information System (PADWIS) as the statewide inventory and compliance data system for the water systems. PADWIS stores data, determines compliance, and reports violations and inventory information to SDWIS/Fed. Also, DEP uses the Drinking Water Electronic Laboratory Reporting (DWELR) application to acquire self-monitoring results from public water systems and their commercial laboratories.</p> <p>The annual license renewal fees for PADWIS and DWELR enable DEP to continue using the SAS software on servers that host these applications. The annual server license fees are approximately \$167,000.</p> <p><u>Moodle Hosting Renewals, Web-based Course Software, and Global TAPS</u></p> <p>The Earthwise Academy is DEP’s web-based university for drinking water system operators and drinking water program staff. DEP contracts with Remote-Learner, Inc. to</p>	<p>Computers and license renewals purchased during the past six-months:</p> <p>Projected purchases for the next six months:</p>

host the Moodle Learning Management System (LMS). The LMS allows DEP to launch and manage web courses and end users. DEP pays a yearly service fee to Remote-Learner, which includes the ELIS Enterprise Learning Suite, hosting, periodic upgrades, and a technical support system. The annual fee is approximately \$12,000.

Software to develop Web-based training is consistently evolving. Every 3 to 4 years, an upgraded version of development software is purchased for at least two individuals responsible for the web-based course program. EPA will be provided a description of the software purchases in the semi-annual progress report. The cost of the software ranges from \$500 to \$3,000 depending on the extent of the version upgrade.

Computer Aid, Inc. is the Commonwealth's staff augmentation contractor and is currently used by DEP's Bureau of Information Technology to provide support and enhancements to the Earthwise Academy site and the web-based training approval system (Global TAPS).

Starting in FY '15-16, EPA approved transferring the following expenses for equipment and supplies from the 2% set-asides:

Outreach Assistance Coordinator

Vehicles

The coordinator for this program travels across the state, providing hands-on assistance to drinking water systems or meeting with outreach program staff to ensure objectives of this program are met. One vehicle was purchased in FY '12-13. Ongoing costs for this vehicle will be limited to operation and maintenance. No OAP vehicles are expected to be replaced during FY 18/19.

Supplies and Equipment

Mobile MiFi Hotspot

Justification: During Training and Workshops, videos can enhance learning, reinforce concepts, and support visual and auditory learners. Several videos have been developed by EPA or through EPA grants and are available on YouTube to view free of charge. VPN connection would allow these videos to be viewed in training locations without internet access.

Estimated cost: 1 wireless mobile hotspot device in FY '17-18 at an estimated cost of \$270 plus monthly internet access at \$50/month (\$600 annually)

Starting in FY '15-16, EPA approved transferring the following expenses for equipment and supplies from the 15% set-asides:

Filter Plant Performance Evaluation(FPPE) and Distribution System Optimization (DSO)

Vehicles

Vehicles have been purchased in previous years to support the FPPE and DSO programs. Staff use these vehicles when traveling across the state to support regional office efforts. Ongoing costs will be limited to the operation and maintenance of these vehicles. These vehicles require periodic replacement. These vehicles are used to transport staff and monitoring equipment across the state during evaluations at water systems, internal and external training events, and technical conferences. One FPPE vehicle replacement is needed in the Northwest at a cost of \$28,000 is expected during FY 19/20.

Field Equipment and Supplies

A safety tripod and winch will be purchased at an estimated cost of \$2,300. This equipment will be used to ensure safety of staff during the deployment of continuous monitoring equipment during distribution system evaluations across the state. The data obtained from this equipment is used to assist public water systems in optimizing the quality of water delivered to customers across the state.

The DSO/FPPE program plans to purchase 5 additional YSI Storm Central Data Loggers, Modems (\$12500), 2 additional DR900s (\$3200) and an SL1000 (\$3700). These items will be used to collect water quality data during special studies which will be used to provide technical assistance to water systems to help them comply with safe drinking water requirements, optimize performance and improve public health protection.

The FPPE program's current pH meters and probes have been discontinued. As a result, the program plans to replace these meters and probes with new ones at a cost of \$14,000. YSI Storm Central Data Hosting – This software allows for the downloading of sampling data taken at remote locations for the Distribution System Optimization Program and Filter Plant Performance Evaluation Program without traveling to the sampling site. The department plans to purchase one storm account renewal and 17 modem renewals at an estimated cost of \$5940 per year.

PA DEP DWSRF SET-ASIDES ASSISTANCE TO STATE PROGRAMS—1452(g)(2) 10% These set-aside funds will be used to enhance ongoing program efforts relative to source water assessment and protection, capability enhancement, and operator training and certification.			
Work Plan Component, Program, and Mechanism: Capability Enhancement; EPA In-kind Services, Equipment, and Supplies			
Grant or Contract Recipient: Not applicable		EPA Contact(s): Kelly Moran	
		State Contact(s): Jason Minnich	
Program Goal: To support Pennsylvania’s PWSS program by improving emergency preparedness and response relating to public water systems, ensuring continuity of operations, ensuring provision of potable drinking water under emergency circumstances, and protecting public health. A portion of this project involves training for DEP staff, including situations such as the chemical spill that occurred on the Elk River, WV, in 2014.			
Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
<p>Percent of community water systems that achieved minimized risk to public health through substantial implementation of a source water protection strategy.</p> <p>Percent of population served by water supply systems that meet all health-based standards.</p>	<p>See Appendix B. A separate spreadsheet is provided that lists all the anticipated equipment and supplies purchases. If additional equipment or supplies is needed, the procedure for pre-approval of these purchases by EPA will be followed.</p>	<p>OUTPUTS:</p> <p>Update/maintain continuity of operations plans through go-kit development and remote emergency access to critical program files through laptop computers with VPN capability.</p> <p>Attend workshops or conferences related to declared and non-declared disasters.</p> <p>Participate in national level ER/cybersecurity/terrorism planning and response workgroups as opportunities become available.</p> <p>Attend EPA-sponsored ER/cyber security/terrorism training programs and seminars.</p> <p>Attend ASDWA-sponsored ER/cyber security/terrorism training programs and seminars.</p> <p>Strengthen DEP’s partnership with PaWARN through involvement in tabletop exercises for water systems and continued involvement with the PaWARN Board of Directors.</p> <p>Develop and present targeted Resiliency, Continuity of Operations Planning and ER plan training workshops held at the regional offices.</p> <p>EQUIPMENT:</p>	<p>Actual in-kind expenditures fiscal year to date:</p> <p>Noteworthy activities for the past six months:</p> <p>Projected activities for the next six months:</p> <p>Obstacles:</p>

Mobile MiFi Hotspot

Justification: The ability to connect to DEP's server network via VPN connection is necessary for emergency response and continuity of operations. Currently, staff rely on their personal high-speed internet connection at home or unsecured publicly provided access when traveling. When working outside of the office or after hours during critical situations, staff require reliable, relatively high speed, and secure internet access. See the description under "Personal Computers" for emergency access requirements. A mobile hotspot device meets the criteria (reliability, speed, and security) for responding to various emergencies regardless of staff location or time of day.

Estimated cost: 1 wireless mobile hotspot device in FY '17-18 at \$270 plus monthly internet access at \$50/month (\$600 annually)

SECTIONS 1452(k)(1)(B) and (k)(1)(D) OTHER AUTHORIZED ACTIVITIES—15%

These set-aside funds will be used to enhance ongoing program efforts relative to source water protection, capability enhancement, and operator training and certification, as described below. These funds need not be matched with state resources. Note that the indicated source water protection activities are considered Categorically Green Infrastructure Projects.

DEP is requesting EPA approval of preaward costs starting on July 1, 2019 (less than 90 days). Re-budgeting of prior year grants to accelerate draws at EPA's request has caused a shortfall this year. Approval of preaward costs will allow the program to continue operations without interruption.

PA DEP DWSRF SET-ASIDES SECTIONS 1452(k)(1)(B) and (k)(1)(D) OTHER AUTHORIZED ACTIVITIES—15% These set-aside funds will be used to enhance ongoing program efforts relative to source water protection, capability enhancement, and operator training and certification. The funds need not be matched with state resources.			
Work Plan Component, Program, and Mechanism: Source Water Protection (categorically green project); Ground Water Protection (Regions) – Wellhead Protection; Staffing			
Grant or Contract Recipient: Not applicable		EPA Contact(s): Kelly Moran	
		State Contact(s): Patrick Bowling	
Program Goal: The project funds will support DEP staff timesheet charges to continue implementation of the “legacy” (original) Ambient and Fixed Station Ground Water Quality Monitoring Program. Staff will design, plan and sample at least two Ground Water Quality Monitoring networks for select ground water basins. The long-term monitoring data from the legacy program is the foundation of DEP’s renewed effort to more fully characterize ambient ground water quality and identify spatial or temporal trends in general ground water quality in Pennsylvania. This effort also includes a newly launched, state-funded “expanded” (statewide) monitoring program in partnership with the U.S. Geological Survey. The results from this effort will support management of wellhead protection areas and will guide the development of new ground water sources for public water systems. Sample analysis costs for the legacy and expanded network sites are solely covered by state funds (no set-asides). State funds to cover analytical costs were not available in 2018, so there was no work done on this activity. If funding is not available in 2019, no work will be done on this activity.

Program Goal:			
To implement the Source Water Assessment & Protection Program at the regional level by supporting and promoting increased participation in source water protection efforts by community waters systems; promoting and facilitating program coordination to support local source water protection programs; conducting and providing support for source water assessments for all sources serving public water systems as needed; and promoting the long-term sustainability of Pennsylvania’s drinking water infrastructure through the implementation of the Capability Enhancement Program within a watershed approach. Each region has developed a regional source water protection (SWP) implementation plan to help move towards the state’s goal for substantial implementation of SWP activities. These regional plans will be used to help revise DEP’s SWP approach as needed.			
Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
<p>Percent of community water systems where risk to public health is minimized through source water protection (measure SP-4(a)).</p> <p>Percent of the population served by community water systems where risk to public health is minimized through source water protection (measure SP-4(b)).</p>	<p>7 FTEs located in the six DEP Regional Offices, Field Operations Deputate.</p> <p>Time code: 38329</p> <p>Staff hours budgeted for this fiscal year: 11,410</p> <p>Additional notes: To accomplish this initiative, the state’s Capability Enhancement Program strategy was revised and submitted to EPA for review in May 2008. This draft strategy was published in the <i>Pennsylvania Bulletin</i> on June 28, 2008. Comments were addressed, and a final strategy was published in the <i>Pennsylvania Bulletin</i> on January 17, 2009.</p>	<p>OUTPUTS:</p> <p>Support development of local source water protection strategies for 6% of community water systems that do not have a source water protection plan or have not undertaken any source water protection efforts.</p> <p>Support substantial implementation of local source water protection programs for 10% of community water systems that do not have approved plans or meet the state definition of substantial implementation.</p> <p>Review and approve 80% of the source water protection plans submitted for each year and maintain plan approval through the annual update process.</p> <p>Assist development of contractor work plans for 100% of CWS seeking technical assistance through SWPTAP.</p> <p>Conduct source water assessments for priority community water system and high-risk noncommunity system sources permitted after 1999 needing assessments. Where feasible, conduct focused assessments on contaminants of highest concern to surface water filtration plant sources (possible examples include cryptosporidium and harmful algal blooms (HABs)).</p> <p>A summary of progress made and finalized work products will be included in the semi-annual progress report.</p> <p>Percent of CWSs where risk to public health is minimized through source water protection (SP-4(a); Goal = 50%).</p> <p>Percent of the population served by CWSs where risk to public health is minimized through source water protection (SP-4(b); Goal = 82%).</p>	<p>Staff hours charged fiscal year to date:</p> <p>Noteworthy activities for the past six months:</p> <p>Projected activities for the next six months:</p> <p>Obstacles:</p>

		Negotiate with Region III the FFY 2016 National Program Manager Guidance Measures for source water protection when they are available.	
--	--	--	--

PA DEP DWSRF SET-ASIDES SECTIONS 1452(k)(1)(B) and (k)(1)(D) OTHER AUTHORIZED ACTIVITIES—15% These set-aside funds will be used to enhance ongoing program efforts relative to source water protection, capability enhancement, and operator training and certification. The funds need not be matched with state resources.			
Work Plan Component, Program, and Mechanism: Source Water Protection (categorically green project); Master Well Owners Network (MWON); Contracts			
Grant or Contract Recipient: Penn State University - School of Forest Resources		EPA Contact(s): Kelly Moran	
		State Contact(s): Patrick Bowling	
Program Goal: MWON is a network of trained volunteers dedicated to promoting the proper construction, operation and maintenance of private water systems in Pennsylvania. The MWON develops and maintains outreach and training materials which are used to provide on-going training and support to volunteers (Master Well Owners) on private water wells and their construction. After training, each Master Well Owner must provide general education about management of private water systems to at least 100 people over a two-year period of time. To date, the volunteer trainers have provided information to over 52,000 well owners through individual contacts and presentations at community events. A portion of the funds will be used to help plan the 2019 Pennsylvania Ground Water Symposium which will provide a forum for researchers, professionals and educators to exchange information and promote the protection of ground water throughout the state. Separate funding will be used to put on the Symposium.			
Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
<p>Percent of community water systems where risk to public health is minimized through source water protection (measure SP-4(a)).</p> <p>Percent of the population served by community water systems where risk to public health is minimized through source water protection (measure SP-4(b)).</p>	<p>Project begins: July 1, 2018</p> <p>Project ends: June 30, 2019 (annual renewal clause)</p> <p>Estimated expenditures under this contract during the fiscal year: \$35,000</p>	<p>OUTPUTS:</p> <p>Provide training for up to 60 new volunteers.</p> <p>Support the approximately 200 active, trained volunteers.</p> <p>Maintain the education and outreach materials and website.</p> <p>Hold a Ground Water Symposium in May 2019.</p>	<p>Actual expenditures fiscal year to date:</p> <p>Noteworthy activities for the past six months:</p> <p>Projected activities for the next six months:</p> <p>Obstacles:</p>

PA DEP DWSRF SET-ASIDES SECTIONS 1452(k)(1)(B) and (k)(1)(D) OTHER AUTHORIZED ACTIVITIES—15% These set-aside funds will be used to enhance ongoing program efforts relative to source water protection, capability enhancement, and operator training and certification. The funds need not be matched with state resources.			
Work Plan Component, Program, and Mechanism: Source Water Protection (categorically green project); Technical Assistance for Source Water Protection for Community Water Systems; Contracts			
Grant or Contract Recipient: SSM Group, Inc.		EPA Contact(s): Kelly Moran	
		State Contact(s): Joe Hebelka	
Program Goal: To provide technical assistance to community water systems and municipalities to develop and implement local source water protection programs aimed at addressing susceptibility of the source to contamination. Local source water protection programs must meet the minimum elements outlined by DEP. Such programs would include features such as: rigorous wellhead protection area delineation; contaminant source inventories; local or regional land use planning; zoning ordinances; educational programs; and landowner incentives.			
Environmental Outcomes	Staffing, Subsidy, Grant or Contract Information	Outputs for State FY19-20 (July 1, 2019 thru June 30, 2020)	Status/Obstacles/Comments
<p>Percent of community water systems where risk to public health is minimized through source water protection (measure SP-4(a)).</p> <p>Percent of the population served by community water systems where risk to public health is minimized through source water protection (measure SP-4(b)).</p>	<p>Project begins: July 1, 2017</p> <p>Project ends: June 30, 2022 (annual renewal clause)</p>	<p>OUTPUTS:</p> <p>Approximately 15 projects are started each year. In addition, approximately 10 projects will be completed each year.</p> <p>Monthly progress reports for community water systems that were provided technical assistance from the project's initiation.</p> <p>SWPTAP Small System SWP Program – administer program for approximately 30 community water systems per year serving <500 people. No longer separate budget item; has been rolled-into general SWPTAP.</p>	<p>Actual expenditures fiscal year to date:</p> <p>Noteworthy activities for the past six months:</p> <p>Projected activities for the next six months:</p> <p>Obstacles:</p>

Work Plan Component, Program, and Mechanism: Source Water Protection (categorically green project); Wellhead Protection Programs and Watershed Protection Programs; Grants			
Grant or Contract Recipient: Pennsylvania Rural Water Association (PRWA)		EPA Contact(s): Kelly Moran	State Contact(s): Patrick Bowling
Program Goal: To provide technical assistance to community water systems that do not have source water protection programs in order to ultimately achieve substantial implementation of local source water protection (wellhead and/or intake protection) programs/activities and to help maintain existing local source water protection programs. Assistance to local programs includes aspects such as guiding steering committees, public participation, contaminant source inventories, source water protection area management, and contingency planning. Various techniques will be utilized by PRWA including the Small Systems Source Water Protection approach in conjunction with DEP or other source water partners. Additionally, PRWA conducts source water training using other funds which includes local workshops and courses at their annual statewide conference.

The funds need not be matched with state resources.			
Work Plan Component, Program, and Mechanism: Source Water Protection (categorically green project); Customized GIS Tools Maintenance; Contracts			
Grant or Contract Recipient: Spatial Information Technologies, Inc.		EPA Contact(s): Kelly Moran	
		State Contact(s): Patrick Bowling	
Program Goal: To explore additional mechanisms to develop and enter into a maintenance agreement to support customized ArcGIS applications (SWAP-GIS, Intake Zone Tool, SOC Tool, SWIS) developed for conducting GIS-based source water assessments, monitoring waiver assessments, and SWAP tracking/reporting. Since these applications were not developed in-house, DEP’s Bureau of Information Technology is requiring a maintenance agreement for the support of the applications. With reduced functionality and the toolbar inexplicably working in only two regions, the fate and long-term viability of this customized ArcGIS toolbar will be evaluated, and discussions will be held to explore whether a newer, web-based application would work better. After a prolonged hiatus due to personal issues, the original software developer has recently indicated the possibility of revising or replacing the toolbar. The technology used for this application is outdated and the contractor/developer even has difficulties accessing and running the toolbar using current computers and software. Revisions to the tool may not be an option.

The funds need not be matched with state resources.			
Work Plan Component, Program, and Mechanism: Capability Enhancement; Drinking Water Protection Initiative; Staffing			
Grant or Contract Recipient: Not applicable		EPA Contact(s): Kelly Moran	
		State Contact(s): Jeffrey Allgyer	
Program Goal: To expand the capability of the PWSS program to protect public health. These staff enable the PWSS program to address the backlog of sanitary surveys and full inspections, expedite the response time to potential violations, improve the timely reporting of violations to EPA, and reduce the number of systems on the Enforcement Targeting Tool (ETT) list. As of July 1, 2009, the Bucks County Health Department canceled the delegation agreement with DEP for the implementation of the PWSS program. In addition, Chester County Health Department canceled the delegation agreement with DEP effective July 1, 2010. As a result, DEP's Southeast Regional Office has absorbed these responsibilities. Two positions, one from the Filter Plant Performance Evaluation Program in the Southwest Regional Office and the Program Analyst vacancy in the Interstate Waters Office funded in the 10% set-asides, was transferred to the Southeast Regional Office as a long-term solution.

Work Plan Component, Program, and Mechanism: Capability Enhancement; Partnership for Safe Water; Grants			
Grant or Contract Recipient: PA Section - American Water Works Association (PA-AWWA)		EPA Contact(s): Kelly Moran	State Contact(s): Kevin Anderson
Program Goal: To provide public relations and public education for water systems to participate in the national Partnership for Safe Water (PfSW). Execute a partnership grant with the PA Section of the American Water Works Association (PA-AWWA) to support implementation of the national Partnership for Safe Water program in Pennsylvania. This will enable PA-AWWA to hire PfSW Representatives to support DEP’s initiative to optimize water quality and reduce risks of a waterborne disease outbreak through active participation in the Partnership. Activities accomplished under this grant support optimization through both plant and distribution PfSW programs.
