## 24-hour Concentration Values

**January 2020 - March 2020\***

\*Due to reduced laboratory analysis activities in response the Governor's stay at home order related to COVID-19, DEP temporarily suspended manual-method PM2.5 samplers from the last week of March through the first week of May, 2020. DEP maintains continuous-method PM2.5 monitors at all manual-method PM2.5 sites. Those monitors were not suspended, and continued to operate during this time.
