MATCH EXPLANATION

14. Is the amount requested an increase or decrease from the amount in previous years? Yes No . If yes, explain below.
An increase in spending authority is required for FY2022-23 due to an increase in the rate per inspection being charged.
15. Are these funds discretionary? Yes No . If yes, explain below.
16. Are these administrative funds for a restricted receipt? Yes No . If so, what is the amount of the restricted receipt?
17. What is the Federal lapse date? 9/30/2023
18. Grant description and results (give purpose of grant and describe key program activities and expected results in terms of a major program measure).
Perform routine compliance tests on diagnostic and mammography x-ray systems that contain equipment certified under the Federal Diagnostic and Mammography X-ray Performance Standard. Total inspections must be at least 75% medical and no more than 25% dental. To reduce or eliminate any unnecessary exposure of the citizens of the Commonwealth through surveillance, education and final regulation. X-ray systems found not in compliance are referred to Federal agency for follow-up.
19. For Subgrants only, identify the parent Federal appropriation and the agency from which the subgrant will be made:

MATCH EXPLANATION

14. Is the amount requested an increase or decrease from the amount in previous years? Yes ___ No X. If yes, explain below.

15. Are these funds discretionary? Yes ___ No X. If yes, explain below.

16. Are these administrative funds for a restricted receipt? Yes ___ No X. If so, what is the amount of the restricted receipt?

17. What is the Federal lapse date? 9/30/2023

18. Grant description and results (give purpose of grant and describe key program activities and expected results in terms of a major program measure).

This grant is for the administration of the Federal Water Pollution Control Program in Pennsylvania utilizing funds from Section 106 of the Clean Water Act. The programs include efforts to finalize the ground-water quality protection and monitoring strategies, continue the development of a proposed program for the management of underground storage systems, complete revisions to the Departments' Spray Irrigation Manual and Implementation guidance, continue evaluation of soil dependent sewage treatment methods, and continue installation of pilot ground-water quality monitoring networks.

19. For Subgrants only, identify the parent Federal appropriation and the agency from which the subgrant will be made:

18. Grant description and results (give purpose of grant and describe key program activities and expected results in terms of a major program measure).

Management of delegated portions of the Federal Sewerage Construction Grants Program and related program activities provided for in the Basic Delegation Agreement dated June 29, 1979 on various supplemental functional agreements. Improved management of the Federal grant program, including elimination of duplicate reviews. Reduced paperwork and red tape, expeditious grant application processing, better management of available grant funds, and other benefits expected by program management at a level closer to municipal government than the federal level.

MATCH EXPLANATION

14. Is the amount requested an increase or decrease from the amount in previous years? Yes ___ No X. If yes, explain below.

15. Are these funds discretionary? Yes ___ No X. If yes, explain below.

16. Are these administrative funds for a restricted receipt? Yes ___ No X. If so, what is the amount of the restricted receipt?

17. What is the Federal lapse date? 9/30/2023

18. Grant description and results (give purpose of grant and describe key program activities and expected results in terms of a major program measure).

This grant is for the administration of the Federal Water Pollution Control Program in Pennsylvania utilizing funds from Section 106 of the Clean Water Act. The programs include efforts to finalize the ground-water quality protection and monitoring strategies, continue the development of a proposed program for the management of underground storage systems, complete revisions to the Department's Spray Irrigation Manual and implementation guidance, continue evaluation of soil dependent sewage treatment methods, and continue installation of pilot ground-water quality monitoring networks.

19. For Subgrants only, identify the parent Federal appropriation and the agency from which the subgrant will be made:

MATCH EXPLANATION

14. Is the amount requested an increase or decrease from the amount in previous years? Yes No . If yes, explain below.

Anticipated funding from the Federal Infrastructure Investment and Jobs Act.

15. Are these funds discretionary? Yes No . If yes, explain below.

16. Are these administrative funds for a restricted receipt? Yes No . If so, what is the amount of the restricted receipt?

17. What is the Federal lapse date? 9/30/2023

18. Grant description and results (give purpose of grant and describe key program activities and expected results in terms of a major program measure).

This grant funding will assist underserved, small and disadvantaged communities that are unable to finance activities needed to comply with the Safe Drinking Water Act (SDWA), as well as respond to a drinking water contaminant.

19. For Subgrants only, identify the parent Federal appropriation and the agency from which the subgrant will be made:

18. Grant description and results (give purpose of grant and describe key program activities and expected results in terms of a major program measure).

Our sister agency Pennsylvania Emergency Management Agency (PEMA) receives Federal funds to obtain specialized equipment for its emergency response units to deal with potential acts of terrorism. Department of Homeland Security (DHS) receives funds for additional planning strategies and staff training to comply with current Homeland Security work effort. Funding allows for personnel costs, travel, and specialized equipment for a new security initiative involving daily air monitoring of biological particulate around pre-determined locations within the Commonwealth.

18. Grant description and results (give purpose of grant and describe key program activities and expected results in terms of a major program measure).

This grant will provide funding for the Department of Environmental Protection (DEP) Vector Management Program to support the expansion of tick testing. The expansion of tick testing to include Borrelia miyonii requires additional laboratory development, testing supplies and an ultra low temperature freezer for sample storage. The DEP Vector Management Program will maintain uninterrupted testing and reporting of disease through the tick season. These results will be reported to Department of Health on a monthly basis and will be available to the Center for Disease Control. The DEP Vector Management Program anticipates processing over 8,000 tick samples annually.

15. Are these funds discretionary? Yes ___ No X. If yes, explain below.

16. Are these administrative funds for a restricted receipt? Yes ___ No X. If so, what is the amount of the restricted receipt?

17. What is the Federal lapse date? 9/30/2023

18. Grant description and results (give purpose of grant and describe key program activities and expected results in terms of a major program measure).

The Underground Storage Tank (UST) program grant will enable the Pennsylvania Department of Environmental Protection to continue to establish notification procedures, develop a data management system, and evaluate the information obtained from the notification forms received from owners of underground storage tanks. This information will be utilized to determine the magnitude of future regulatory obligations and resource requirements for implementation of a UST program in Pennsylvania.

18. Grant description and results (give purpose of grant and describe key program activities and expected results in terms of a major program measure).

There are over 1.3 million underground tanks in the U.S. that contain petroleum. It has been estimated that thousands of these tanks are currently leaking, with many more expected to leak as they reach the end of their tank life within the next ten years. In October 1986, Congress amended Subtitle I of the Resource Conservation and Recovery Act to provide a Federal Trust Fund to finance the cleanup of petroleum releases from underground storage tanks. The Environmental Protection Agency (EPA) intends to make available Trust Fund monies through cooperative agreements with States having acceptable plans for using fund resources. The cooperative agreement is an assistance instrument which establishes the respective responsibilities of an individual state for implementation, and EPA for both oversight and technical assistance under the Trust Fund corrective action program. High priority for corrective actions is to be given to (1) releases which pose the greatest threat to human health and the environment, and (2) sites where the state cannot identify a solvent owner or operator of the tank who will undertake action properly.
