Major Themes in CAP Comment Letters from the CCAC

Climate Change Advisory Committee
June 25, 2019

Tom Wolf, Governor

Patrick McDonnell, Secretary

Comment Themes

- Natural gas:
 - Its role in GHG reductions
 - Assumptions used in modeling methane emissions reductions
 - Its importance in PA's energy/economic landscape

Comment Themes

- Sector focus:
 - More balance across sectors was recommended (specifically more focus on transportation)
 - Focus on energy sector was commended

Comment Themes

- Costs:
 - Further analysis of costs/benefits to businesses/citizens needed
 - Sensible focus on most cost-effective strategies for GHG reductions
 - Concerns over some metrics used to measure economic impacts:
 - Social cost of carbon
 - NPV
 - \$/ton
