# Meeting Wrap-Up

- Think about for discussion at the next meeting: How does this information received today combined with your knowledge help to inform the development and underlying assumptions needed to develop the next CAP?
- 2027 CIA Status: Discussing TA opportunities with academic institutions to update climate projections/develop adaptation strategies
- 2027 CAP Status: Consultant onboarding to update strategy modeling for final CPRG deliverable, mapping how to transform that deliverable into the 2027 CAP
- We'd like to use our April meeting as a working CIA/CAP session –would like to use that time to get early input to shape the next CIA and CAP, we anticipate we'll have our consultant onboard to discuss CAP modeling assumptions.
- Any closing/further thoughts from the CCAC on items we heard/discussed today that can help inform our future sessions?
