

Selecting a Non-Residential Soil MSC Using ONLY the Numeric Values in the Chapter 250 Tables

Example: Lead, Non-residential Site
(Used Aquifers, TDS \leq 2,500 mg/kg)

From Table 4B of Chapter 250
(Administration of Land Recycling Program)
Select the ***Higher Soil-to-Groundwater Value** between

*: the remediator is free to choose either soil-to-groundwater value during this step. In this example, the remediator has chosen the higher of the two values.
