Re: **ITEM:** CUMMINS QSB6.7 (215 HP @ 2500 RPM)
MODEL: 30T215D
APSID NO: 1142213
APPROVAL NO. BOTE-DEES: 20-24
Modification Alternate Catalyst

Dear Mr. Mock:

Chapter 4 of the “Bituminous Coal Mine Safety Act” (the Act) provides for the use of diesel-powered equipment in underground bituminous coal mines. Section 424 of the act created a Technical Advisory Committee (“TAC”) for the purpose of advising the Department regarding implementation of Chapter 4 and evaluation of alternative technology or methods for meeting the requirements of Chapter 4.

On July 28, 2025, Brookville Equipment Corporation submitted a request to the Technical Advisory Committee (“TAC”) and Bureau of Mine Safety to have this piece of equipment inspected. On August 13, 2025, The DEP Bureau Director requested the TAC to review and comment on this request.

Temporary approval was granted on August 13, 2025, to use the alternate catalyst for testing purposes. On September 10, 2025, the TAC and DEP traveled to Enlow Fork Mine to conduct their investigation, and the TAC issued their report on September 15, 2025. Permanent approval was recommended at the TAC meeting on October 8, 2025.

Based on the recommendation of the TAC and the equipment approval staff, your request for approval is granted.

If you have any questions on this request, please contact me at either rwagner@pa.gov or at 724.404.3154.

Sincerely,

Richard A. Wagner, P.E.
Director
