

Regulatory Citation(s):

78.85. Cementing standards.

(f) A copy of the cement job log shall be available at the well site for inspection by the Department during drilling operations. The cement job log must include...

Question:

Must operators provide the log for all cement jobs already performed or just for those that had not yet been completed by February 5, 2011?

Response:

Cement job logs need only be available for cement jobs completed after February 5, 2011.
