Transcontinental Gas Pipe Line Company, LLC
Columbia County*

ATTACHMENT D -1
SUMMARY OF PHMC COORDINATION

Revised November 18, 2016

Note: This Attachment has been replaced in its entirety

Agency Consultation/Coordination: The results of the archaeological, geomorphological and Architectural History investigations conducted in Columbia County have been submitted to the PHMC for review, as parts of four report packages: the March 2015 Initial Report Package, the November 2015 Addendum 1 Report Package, the May 2016 Addendum 2 Report Package, and the August 2016 Addendum 3 Report Package. These report submittals are marked “Contains Privileged Information – Do Not Release,” and can be available upon request directly to the PHMC. The PHMC has not requested any other specific survey methodologies or data with regard to the Project elements in Columbia County, aside from that supplied in the following reports and PHMC correspondence (**Table D-1**) and copies of these clearance/approval letters are provided within Attachment D-2.

**Table D-1
 Project CRM Report Submittals and PHMC Responses**

Report Package Submission	PHMC Response Correspondence
March 2015 Initial Report Package	<u>Archaeology and Geomorphology</u> : Concurrence letter from the PHMC dated 21 September 2015
	<u>Architectural History</u> : Confirmation of receipt letter from the PHMC dated 22 April 2015
November 2015 Addendum 1 Report Package	<u>Archaeology and Geomorphology</u> : Concurrence letter from the PHMC dated 8 March 2016
	<u>Architectural History</u> : Confirmation of receipt letter from the PHMC dated 14 December 2015
May 2016 Addendum 2 Report Package	<u>Archaeology and Geomorphology</u> : Concurrence letter from the PHMC dated 14 July 2016
	<u>Architectural History</u> : Confirmation of receipt letter from the PHMC dated 27 June 2016
August 2016 Addendum 3 Report Package	<u>Archaeology and Geomorphology</u> : Concurrence letter from the PHMC dated 21 September 2016
	<u>Architectural History</u> : Confirmation of receipt letter from the PHMC dated 19 September 2016

In addition, Transco conducted Phase II NRHP Testing at site 36CO0051 in 2015, the results of which were submitted to the PHMC for review as Volume V of the May 2016 Addendum 2 Report Package. This testing recommended that site 36CO0051 is Not Eligible for the NRHP; the PHMC determined site 36CO0051 as Not Eligible, in the 14 July 2016 response letter.

The Unanticipated Discovery Plan prepared for the Project was included as part of the March 2015 Phase I report submittal, and approved for use by the PHMC in the 21 September 2015 response letter (noted above). The Unanticipated Cultural and Human Remains Discovery Plans and the Unanticipated Discovery Plan for Paleontological Resources Plan are included as Attachments 4 and 5, respectively, within the ECP (Attachment M).

Public Outreach: An open house for the Project in Columbia County was held at the Bloomsburg Fire Department Social Hall on June 5, 2014. Public comment from several landowners was received on potential cultural issues, all of which were examined and addressed during the cultural resources field reconnaissance for the Project. In addition to the open house, consultation was initiated with the Columbia Historic Preservation Society concerning cultural resources in Columbia County. The historical society did not respond with any comments on the proposed Project.

Consultation was also initiated with 25 Native American tribal entities that may have cultural resources concerns within Columbia County. Of the 25 tribes contacted, the Catawba Indian Tribe, Delaware Nation, Delaware Tribe of Indians, Oneida Nation, and the Stockbridge Munsee Band of Mohicans requested Project cultural resources documentation and provided comment on the Project. Cultural resources documentation has been provided, and coordination is ongoing with these five tribal entities.

Cultural Resources Survey Summary: The Phase I archaeological field reconnaissance conducted in Columbia County was focused on the 34.3 miles of CPL-South and 5.0 miles of CPL-North alignment located within the county. The field survey investigated a 300-foot-wide study corridor on both proposed alignments, in addition to full survey coverage of ancillary work areas, which resulted in the examination of 13,306 SL in Columbia County. The field survey recorded 2,980 SL as occurring on steep slopes, 625 SL as wet (in either a waterbody or wetland), 2,274 SL within agricultural fields displaying sufficient ground surface visibility to meet PHMC guidelines, and 1,762 SL were determined to have been subjected to modern ground disturbance (most commonly underground pipeline utilities). The field crew also visually inspected 66 SL in residential properties. The visual inspection was supplemented by the hand excavation of 5,599 shovel tests. These investigations resulted in the identification of 20 archaeological resources within the current limits of the field survey, as outlined in **Table D-2**, and the section below.

The Architectural History field reconnaissance of the Project in Columbia County resulted in the identification of 94 historic-era aboveground resources located within the viewshed of the Project, as indicated in **Table D-3** below. An additional 17 aboveground resources were identified on work areas subsequently removed from the Project, and are not therefore included in the current inventory of aboveground resources identified.

The geomorphological desktop study identified five drainage crossings in Columbia County which display the potential for containing deeply buried cultural deposits: Mugser Run, Hemlock Creek, Fishing Creek, Roaring Creek and the Susquehanna River. Deep testing was completed on the north bank of Mugser Run, and no testing was warranted on the south bank. No additional geomorphological testing is needed at either location. Phase I shovel testing on the north bank of Roaring Creek determined further testing was not warranted, while deep testing excavations were completed on the south bank. No additional geomorphological investigations are necessary at this location. At the Columbia County Crossing of the Susquehanna River, Phase I shovel testing on the west bank determined further deep testing was not required. No deep testing was warranted on the east bank of the river due to the planned HDD at this location. Because of the proposed HDD, additional geomorphological testing at this crossing is not necessary. Phase I shovel testing at the Hemlock Creek crossing determined further deep testing was not warranted, and no additional geomorphological investigations were needed. Deep testing was also

completed at the Little Fishing Creek crossing, and the PHMC concurred that no additional investigations are warranted at this location.

Additional cultural resources fieldwork is projected in Columbia County, on realigned and previously-inaccessible tracts of the CPL-South loop.

Cultural Resources Identified: The Phase I archaeological field reconnaissance of the CPL-North study corridor in Columbia County resulted in the identification of four archaeological resources, while an additional 16 archaeological resources were identified on the CPL-South study corridor in Columbia County. Nineteen of these 20 archaeological resources represent low-frequency/ephemeral surface and plowzone artifact scatters displaying limited potential for intact, significant archaeological deposits, and were all recommended as Not Eligible for the NRHP. The PHMC determined, in various correspondence in 2014, 2015, and 2016, that no further work would be necessary for any of these 19 locations prior to construction of the Project. A single archaeological resource on CPL-South was determined Potentially Eligible for intact archaeological deposits, and subjected to Phase II NRHP testing. Upon completion of testing, the PHMC determined the resource as Not Eligible for listing in the NRHP in the concurrence letter dated 14 July 2016.

A total of 111 aboveground resources were identified during the Architectural History survey conducted for Project land requirements in Columbia County; 94 of these resources are currently located within the Project, while an additional 17 resources were identified on parcels subsequently removed from the Project APE (due primarily to changes in the Project alignment). Transco recommended six of the resources as Eligible and two of the resources as Potentially Eligible for the NRHP. PHMC review concluded that four of the six resources submitted as Eligible were actually Eligible, while two of the resources were Not Eligible. PHMC also determined that the two resources submitted as Potentially Eligible were not Potentially Eligible. PHMC determined that the remaining 86 resources had no anticipated effects from the Project.

The following tables list the cultural resources identified as a result of the archaeological and Architectural History field reconnaissance conducted in Columbia County.

**Table D-2
 Inventory of Archaeological Resources Identified in Columbia County**

Resource ID	Type	Description	PHMC DOE Determination	Treatment Status
36CO/010	Archaeological Resource	Prehistoric Isolated Find	Not Evaluated, No Further Work (11/18/2014)	No Further Work
36CO0048	Archaeological Resource	Multi-component Subsurface Scatter	Not Eligible (11/18/2014)	No Further Work
36CO/011	Archaeological Resource	Prehistoric Isolated Find	Not Evaluated, No Further Work (11/18/2014)	No Further Work
36CO0049	Archaeological Resource	Multi-component Subsurface Scatter	Not Eligible (11/18/2014)	No Further Work

Table D-2
Inventory of Archaeological Resources Identified in Columbia County

Resource ID	Type	Description	PHMC DOE Determination	Treatment Status
36CO/009	Archaeological Resource	Prehistoric Isolated Find	Not Eligible (11/18/2014)	No Further Work
36CO/007	Archaeological Resource	Prehistoric Isolated Find	Not Evaluated, No Further Work (7/8/2014)	No Further Work
36CO/008	Archaeological Resource	Prehistoric Isolated Find	Not Evaluated, No Further Work (7/8/2014)	No Further Work
36CO0050	Archaeological Resource	Prehistoric Subsurface Scatter	Not Eligible (5/13/2015)	No Further Work
36CO/012	Archaeological Resource	Prehistoric Isolated Find	Not Evaluated, No Further Work (5/13/2015)	No Further Work
36CO0051	Archaeological Resource	Prehistoric Subsurface Scatter	Phase II NRHP Testing completed; Resource determined Not Eligible by PHMC (7/14/2016)	No Further Work
36CO/015	Archaeological Resource	Historic Isolated Find	Not Evaluated, No Further Work (3/8/2016)	No Further Work
36CO/018	Archaeological Resource	Prehistoric Isolated Find	No DOE, Not Evaluated, No Further Work (3/1/2016)	No Further Work
36CO/016	Archaeological Resource	Historic Isolated Find	Not Evaluated, No Further Work (11/24/2015)	No Further Work
36CO0052	Archaeological Resource	Historic Subsurface Scatter	Not Eligible (11/24/2015)	No Further Work
36CO054	Archaeological Resource	Prehistoric Subsurface Scatter	Not Eligible (9/21/2016)	No Further Work
36CO/013	Archaeological Resource	Historic Isolated Find	Not Evaluated, No Further Work (5/13/2015)	No Further Work
36CO/020	Archaeological Resource	Prehistoric Isolated Find	No DOE, Not Evaluated, No Further Work (3/1/2016)	No Further Work
