

*Atlantic Sunrise Project – PA DEP Chapter 105 Joint Permit Application
Transcontinental Gas Pipe Line Company, LLC
Schuylkill County*

**ATTACHMENT C -1
ACT 14 NOTIFICATION LETTERS**

Revised December 4, 2015

*Atlantic Sunrise Project – PA DEP Chapter 105 Joint Permit Application
Transcontinental Gas Pipe Line Company, LLC
Schuylkill County
Attachment C - Act 14 Notification Letters*

Transco has provided notification letters to all Municipalities and Counties affected by the Project; however the Project is governed by the Natural Gas Act with the Federal Energy Regulatory Commission (FERC) having exclusive jurisdiction over siting. Therefore, local zoning is preempted.

Re: Atlantic Sunrise Project
Schuylkill County
Pennsylvania Acts 14, 67, 68, 127, and 167 Notification

Dear Schuylkill County Commissioners:

In accordance with Section 1905-A of the Commonwealth Administrative Code, as amended by Act 14, written notification of proposed construction activities must be provided to all applicable municipalities and counties at least 30 days prior to the issuance of Pennsylvania Department of Environmental Protection (PADEP) permits; therefore, the purpose of this letter is to inform the Commissioners that TRC Solutions (TRC) intends to submit a Chapter 105 Water Obstruction and Encroachment Permit (Chapter 105) to the PADEP and an Erosion and Sediment Control General Permit (ESCGP-2) to the Schuylkill County Conservation District on behalf of the Transcontinental Gas Pipeline Company, LLC (Transco), a subsidiary of Williams Partners L.P. (Williams) for the above referenced Project.

Additionally, this notification serves as Act 167 notification related to Stormwater Consistency, and required by the Chapter 105 and ESCGP-2 permit applications.

Transcontinental Gas Pipe Line Company, LLC. (Transco), a subsidiary of Williams Partners L.P. (Williams), submitted an application to the Federal Energy Regulatory Commission (FERC or Commission) for a Certificate of Public Convenience and Necessity (Certificate) for the Project on March 25, 2015.

The Project is an expansion of the existing Transco natural gas transmission system that will enable Transco to provide 1.7 million dekatherms per day (MMDth/d) of incremental firm transportation of natural gas from the Marcellus Shale production areas in northern Pennsylvania to its existing market areas, extending to as far south as the Station 85 Pooling Point in Choctaw County, Alabama. The Project includes modifications to the existing Transco Mainline system to reverse the direction of flow, enabling new north-to-south capabilities (bi-directional flow) to transport this new source of natural gas to existing markets. The Project consists of the following primary components within Pennsylvania:

- 57.3 miles of new 30-inch-diameter and 125.2 miles of 42-inch-diameter greenfield pipeline;
- 2.9 miles of new 36-inch-diameter and 8.6 miles of 42-inch-diameter pipeline loops;
- Two new compressor stations;
- Additional ancillary facilities, such as mainline valves (MLVs), cathodic protection, communication facilities, and internal inspection device (e.g., pig) launchers and receivers;
- Two new meter stations and three new regulator stations with interconnecting piping;
- Additional compression and related modifications to one existing compressor stations; and
- Modification to an existing meter station for use of shared facilities with a new meter station;

If FERC issues a Certificate for the Project and Transco obtains the applicable permits and authorizations, Transco anticipates that construction of the Project will begin by July 2016 to meet an in-service date of July 1, 2017.

Re: Transcontinental Gas Pipeline Company, LLC
Atlantic Sunrise Pipeline
Schuylkill County

The municipality of states that it:

- has adopted a municipal or multi-municipal comprehensive plan.
If yes, please provide date of adoption: _____
- has not adopted a municipal or multi-municipal comprehensive plan.

The County of Schuylkill states that it:

- has adopted a county zoning ordinance, or a municipal or joint-municipal zoning ordinance.
- has not adopted a county zoning ordinance, or a municipal or joint-municipal zoning ordinance.

If applicable:

The municipality of states that its zoning ordinance is generally consistent with its municipal comprehensive plan and the county comprehensive plan.

The above referenced proposed project

- meets the provisions of the local zoning ordinance

If zoning approval is required for the project to proceed, the above referenced project:

- has received zoning approval.
- has not received zoning approval.

If the proposed project has not received zoning approval:

What is the status of the zoning request for the proposed project? (e.g., Special Exception Approval from the Zoning Hearing Board required, Conditional Use approval from the Governing Body required)

Is there a legal challenge by the applicant with regard to zoning for the proposed project?

Eldred Township Board of Supervisors
154 Ridge Road
Pitman, PA 17964

Re: Atlantic Sunrise Project
Eldred Township, Schuylkill County
Pennsylvania Acts 14, 67, 68, 127, and 167 Notification

Dear Eldred Township Supervisors:

In accordance with Section 1905-A of the Commonwealth Administrative Code, as amended by Act 14, written notification of proposed construction activities must be provided to all applicable municipalities and counties at least 30 days prior to the issuance of Pennsylvania Department of Environmental Protection (PADEP) permits; therefore, the purpose of this letter is to inform the Supervisors that TRC Solutions (TRC) intends to submit a Chapter 105 Water Obstruction and Encroachment Permit (Chapter 105) to the PADEP and an Erosion and Sediment Control General Permit (ESCGP-2) to the Schuylkill County Conservation District on behalf of the Transcontinental Gas Pipeline Company, LLC (Transco), a subsidiary of Williams Partners L.P. (Williams) for the above referenced Project.

Additionally, this notification serves as Act 167 notification related to Stormwater Consistency, and required by the Chapter 105 and ESCGP-2 permit applications.

Transcontinental Gas Pipe Line Company, LLC. (Transco), a subsidiary of Williams Partners L.P. (Williams), submitted an application to the Federal Energy Regulatory Commission (FERC or Commission) for a Certificate of Public Convenience and Necessity (Certificate) for the Project on March 25, 2015.

The Project is an expansion of the existing Transco natural gas transmission system that will enable Transco to provide 1.7 million dekatherms per day (MMDth/d) of incremental firm transportation of natural gas from the Marcellus Shale production areas in northern Pennsylvania to its existing market areas, extending to as far south as the Station 85 Pooling Point in Choctaw County, Alabama. The Project includes modifications to the existing Transco Mainline system to reverse the direction of flow, enabling new north-to-south capabilities (bi-directional flow) to transport this new source of natural gas to existing markets. The Project consists of the following primary components within Pennsylvania:

- 57.3 miles of new 30-inch-diameter and 125.2 miles of 42-inch-diameter greenfield pipeline;
- 2.9 miles of new 36-inch-diameter and 8.6 miles of 42-inch-diameter pipeline loops;
- Two new compressor stations;
- Additional ancillary facilities, such as mainline valves (MLVs), cathodic protection, communication facilities, and internal inspection device (e.g., pig) launchers and receivers;
- Two new meter stations and three new regulator stations with interconnecting piping;
- Additional compression and related modifications to one existing compressor stations; and
- Modification to an existing meter station for use of shared facilities with a new meter station;

If FERC issues a Certificate for the Project and Transco obtains the applicable permits and authorizations, Transco anticipates that construction of the Project will begin by July 2016 to meet an in-service date of July 1, 2017.

Pine Grove, PA 17963

Re: Atlantic Sunrise Project
Pine Grove Township, Schuylkill County
Pennsylvania Acts 14, 67, 68, 127, and 167 Notification

Dear Pine Grove Township Supervisors:

In accordance with Section 1905-A of the Commonwealth Administrative Code, as amended by Act 14, written notification of proposed construction activities must be provided to all applicable municipalities and counties at least 30 days prior to the issuance of Pennsylvania Department of Environmental Protection (PADEP) permits; therefore, the purpose of this letter is to inform the Supervisors that TRC Solutions (TRC) intends to submit a Chapter 105 Water Obstruction and Encroachment Permit (Chapter 105) to the PADEP and an Erosion and Sediment Control General Permit (ESCGP-2) to the Schuylkill County Conservation District on behalf of the Transcontinental Gas Pipeline Company, LLC (Transco), a subsidiary of Williams Partners L.P. (Williams) for the above referenced Project.

Additionally, this notification serves as Act 167 notification related to Stormwater Consistency, and required by the Chapter 105 and ESCGP-2 permit applications.

Transcontinental Gas Pipe Line Company, LLC. (Transco), a subsidiary of Williams Partners L.P. (Williams), submitted an application to the Federal Energy Regulatory Commission (FERC or Commission) for a Certificate of Public Convenience and Necessity (Certificate) for the Project on March 25, 2015.

The Project is an expansion of the existing Transco natural gas transmission system that will enable Transco to provide 1.7 million dekatherms per day (MMDth/d) of incremental firm transportation of natural gas from the Marcellus Shale production areas in northern Pennsylvania to its existing market areas, extending to as far south as the Station 85 Pooling Point in Choctaw County, Alabama. The Project includes modifications to the existing Transco Mainline system to reverse the direction of flow, enabling new north-to-south capabilities (bi-directional flow) to transport this new source of natural gas to existing markets. The Project consists of the following primary components within Pennsylvania:

- 57.3 miles of new 30-inch-diameter and 125.2 miles of 42-inch-diameter greenfield pipeline;
- 2.9 miles of new 36-inch-diameter and 8.6 miles of 42-inch-diameter pipeline loops;
- Two new compressor stations;
- Additional ancillary facilities, such as mainline valves (MLVs), cathodic protection, communication facilities, and internal inspection device (e.g., pig) launchers and receivers;
- Two new meter stations and three new regulator stations with interconnecting piping;
- Additional compression and related modifications to one existing compressor stations; and
- Modification to an existing meter station for use of shared facilities with a new meter station;

If FERC issues a Certificate for the Project and Transco obtains the applicable permits and authorizations, Transco anticipates that construction of the Project will begin by July 2016 to meet an in-service date of July 1, 2017.

Applicant Contact: Roberta Zwier
Manager, Environmental Permitting, Atlantic-Gulf Operating Area

Re: Transcontinental Gas Pipeline Company, LLC
Atlantic Sunrise Pipeline
Pine Grove Township, Schuylkill County

The municipality of Pine Grove Township states that it:

- has adopted a municipal or multi-municipal comprehensive plan.
If yes, please provide date of adoption: _____
- has not adopted a municipal or multi-municipal comprehensive plan.

The County of Schuylkill states that it:

- has adopted a county zoning ordinance, or a municipal or joint-municipal zoning ordinance.
- has not adopted a county zoning ordinance, or a municipal or joint-municipal zoning ordinance.

If applicable:

The municipality of Pine Grove Township states that its zoning ordinance is generally consistent with its municipal comprehensive plan and the county comprehensive plan.

The above referenced proposed project

- meets the provisions of the local zoning ordinance

If zoning approval is required for the project to proceed, the above referenced project:

- has received zoning approval.
- has not received zoning approval.

If the proposed project has not received zoning approval:

What is the status of the zoning request for the proposed project? (e.g., Special Exception Approval from the Zoning Hearing Board required, Conditional Use approval from the Governing Body required)

Is there a legal challenge by the applicant with regard to zoning for the proposed project?
