RE: SUNOCO PIPELINE L.P. – PENNSYLVANIA PIPELINE PROJECT
CONSISTENCY – MUNICIPAL STORMWATER MANAGEMENT

Dear Ms. Carson,

In response to your recent requests and evaluating the July 22, 2016 information submitted, Blair Township, Blair County, PA is able to verify that since no impervious surface will be created within the township, the proposed Sunoco pipeline installation project is consistent with Blair Township's Stormwater Management Ordinance, Ordinance No. 2011-08.

Should the plans be revised to include the creation of 5,000 sq. ft. or more of new impervious surface within Blair Township, then you must submit revised plans for re-consideration. This situation would also require submission of an application for land development approval with a plan designed in compliance with the township's stormwater management ordinance.

Sincerely,

Betty Robertson
Secretary
