ADDRESS:		E-MAIL:	
CC:		SUBJECT:	Followup of Act 167 Letter

SUMMARY:

Rick Craig from West Goshen Township (610-696-5266, ext. 4122) returned a call to Tetra Tech and left a voicemail at 1:55 pm on Tuesday, March 1, 2016. Acknowledged he received the Sunoco letter which was sent to him along with the photographs. Stated it's not sufficient for him to determine if Tetra Tech is in compliance with their Storm Water and Flood Plain Ordinances. Rick stated there are no design details, no E&S controls, and no storm water management information whatsoever. He cannot issue a letter of consistency without that information. In addition, Tetra Tech indicated that the pipeline will cross a 100 year floodplain. That requires a special exception from our zoning hearing board. Again, not consistent with Flood Plain Ordinance. Will need all information before issuing any letter.
