Project Number 112IC05958

Washington County  
Director of Administration  
Courthouse Square  
100 West Beau Street, Suite 702  
Washington, Pennsylvania 15301

Reference: Sunoco Pipeline, L.P. (SPLP)  
Pennsylvania Pipeline Project

To Whom It May Concern:

This municipal notice, under the requirements of Acts 14, 67, 68, and 127, is to inform you that our client, Sunoco Pipeline, L.P. (SPLP), is applying for coverage under the Erosion and Sediment Control General Permit (ESCGP-2) for Earth Disturbance Associated with Oil and Gas Exploration, Production, Processing or Treatment Operations or Transmission Facilities and for coverage under Chapter 105 Joint Permit for Water Obstruction and Encroachment.

Project Name: Pennsylvania Pipeline Project

Applicant Name: Sunoco Pipeline, L.P.  
525 Fritztown Road  
Sinking Spring, PA 19608

Project Description: Sunoco Pipeline, L.P. (SPLP) proposes to construct and operate the Pennsylvania Pipeline Project that would expand existing pipeline systems to provide natural gas liquid (NGL) transportation of up to 350,000 barrels per day. The project involves the installation of approximately two parallel pipelines within a 306-mile, 50-foot-wide right-of-way (ROW) from Houston, Washington County, Pennsylvania (PA) to SPLP's Marcus Hook facility in Delaware County, PA with the purpose of interconnecting with existing SPLP Mariner East pipelines. A 20-inch diameter pipeline would be installed within the ROW from Houston to Marcus Hook (306 miles) and a second, up to 20-inch diameter pipeline, will also be installed in the same ROW. The second line is proposed to be installed from SPLP's Delmont Station, Westmoreland County, PA to the Marcus Hook facility, paralleling the initial line for approximately 255 miles. The pipeline will traverse through four townships in Washington County: Chartiers, North Strabane, Nottingham, and Union Townships. In addition, temporary use areas or extra workspaces will be required at some stream and road/railroad crossings; these will typically expand the construction ROW by 25 feet where needed. Construction activities will involve clearing and grubbing within the ROW, trenching, boring, pipe installation, and site restoration. Existing access roads will be used during construction. Erosion and sediment controls will be in place prior to and during earth disturbance activities, and until the project areas are permanently stabilized.

Site Location: The project crosses through Chartiers, North Strabane, Nottingham, and Union Townships in Washington County.

Enclosed is a copy of the Notice of Intent (NOI) application for an ESCGP-2, General Information Form (GIF) for the Wetlands and Waterways permit application, and figures of the proposed pipeline route. Please submit any comments concerning this project within 30 days from date of receipt of this letter to:
