Dear Joseph Dean:

The Department of Environmental Protection (DEP) has reviewed the above referenced application package for completeness. The completeness review is the first step in a series of reviews conducted by DEP.

DEP has determined that the application contains sufficient detail to enable DEP to conduct the technical review and has been accepted for that purpose.

This is not a final action by DEP on this application. The completeness review is the first in a series of reviews conducted by DEP. The application will now move to the technical review stage of the permit review process. During the technical review, the adequacy of the application and its components will be evaluated to determine if sufficient information exists to render a decision on the technical merits of your application.

The PAYback program amends the former Permit Decision Guarantee program. [Executive Order 2023-07](#) requires the Department to abide by established review times for each authorization. The PAYback program became effective November 1, 2023, as required by Executive Order 2023-07. Chapter 105 applications or registrations received by the Department on or after that date are subject to this policy and are potentially eligible for Pennsylvania's PAYback program. More information is available on the [PAYback website](#).

I hope you find this information helpful in understanding the permit review process. If you have additional questions about your application, please contact Michael Luciani at 570.826.2597 or mluciani@pa.gov and refer to the Application Number referenced above. You may also follow
