DEP is continuing to review the comments and scientific data and will return to WRAC with a final rulemaking before going to the EQB. No time line has been established as to when this final rulemaking will go before the EQB.

**Chapter 93 – Triennial Review of Water Quality Standards**

Tom Barron gave a presentation on DEP's undertaking of the Triennial Review of Water Quality Standards and asked for any recommendations that DEP should consider in the Review. It is DEP's hope to have the Review back before WRAC in early 2011.

**Chapter 105 (Fees)**
