Wilkes-Barre, PA 18701-1915

**RE: North East Waste Systems, LLC – North East Waste Sytems Transfer Facility  
Application for Municipal Waste Transfer Facility Permit  
Hazleton, Luzerne County, Pennsylvania**

Dear Mr. Bellas:

On behalf of North East Waste Systems, LLC, BAI Group is pleased to provide the above referenced application for a newly proposed solid waste transfer facility in the City of Hazleton. We are submitting the application digitally through the Department's public upload portal with electronic payment of the required application fee in the amount of \$4,400.

The appropriate notices required in Form A have been sent and the newspaper notice publication is in progress. Additionally, airport notices to the FAA, PennDOT and two (2) airports within 6 miles have been sent. We are still awaiting return of the certified mail receipts for the municipal notification letters as the completed application enclosed herein was also included with the notification letters to the host City and County. Other notices (contiguous landowners and airport notices) have already been received and proofs of receipt are included in the application. Proof of publication as well as proof of receipt of the remaining notices will be forwarded to you upon completion in the near future. To date, we have not received any correspondences as a result of the notifications. If we receive any correspondences from any of the notifications, they will be forwarded to you as well.

This application contains the appropriate forms and drawings for a new transfer facility. If you or your staff have questions or require additional information or we can facilitate your review in any way, please do not hesitate to contact us.

Sincerely,

**BAI Group**

Karen E. Finlan  
Senior Environmental Consultant
