### **Archaeological Resources**

*More Information Requested - Environmental Review - More Info - Archaeological - Known Site*

The following previously recorded archaeological site is located within or adjacent to your project area: 36NM0002 (Portland IV). This resource could be adversely affected by

project activities and has not been evaluated for its eligibility for listing in the National Register of Historic Places. It is our opinion that a Phase I archaeological survey to relocate this known site and locate other potentially significant sites within the project area should be conducted. Guidelines and instructions for conducting all phases of archaeological survey in Pennsylvania are available on our website:

<https://www.phmc.pa.gov/Preservation/About/Documents/Guidelines%20for%20Archaeological%20>

*More Information Requested - New Survey*

Please use this Request for More Information to enter survey and resource data and upload the survey report. Please submit the requested materials to the PA SHPO through PA-SHARE using the link under SHPO Requests More Information on the Response screen.

For questions concerning archaeological resources, please contact Casey Hanson at [chanson@pa.gov](mailto:chanson@pa.gov).

Sincerely,

Emma Diehl
