

Operation Permit issued to VisionQuest National, LTD., PWSID #6201174, East Mead Township, Crawford County. Permit Number 2011501 issued March 15, 2012 for the operation of the VisionQuest Lee Prep Academy located east of the intersection of State Route 77 and State Route 198 in East Mead Township, Crawford County. This permit is issued in response to an operation inspection conducted by Department of Environmental Protection personnel on February 14, 2012.

Operation Permit issued to William Cunningham d/b/a Cedar Acres Mobile Home Park, PWSID #6370910, Scott Township, Lawrence County. Permit Number 3793503-T1-MA1, issued March 15, 2012 for the operation of 4-Log treatment of viruses for Entry Points 101 and 102. This action is taken under the requirements of the Groundwater Rule.

Operation Permit issued to Palmer Shores Water Association, PWSID #6250035, Fairview Township, Erie County. Permit Number 2505501-MA1, issued March 15, 2012 for the operation of 4-Log treatment of viruses for Entry Point 001. This action is taken under the requirements of the Groundwater Rule.

Operation Permit issued to Quality Life Services, Inc. d/b/a Chicora Medical Center, PWSID #5100127, Donegal Township, Butler County. Permit Number 1091501-T1-MA1, issued March 20, 2012 for the operation of 4-Log treatment of viruses for Entry Point 101. This action is taken under the requirements of the Groundwater Rule.

Operation Permit issued to Sandy Hill Estates Mobile Home Park, L.P., PWSID #5100018, Middlesex Township, Butler County. Permit Number 1088512-T2-MA1, issued March 20, 2012 for the operation of 4-Log treatment of viruses for Entry Point 101. This action is taken under the requirements of the Groundwater Rule.

SEWAGE FACILITIES ACT PLAN APPROVAL

Plan Approvals Granted Under the Pennsylvania Sewage Facilities Act (35 P. S. § 750.5)

Northeast Region: Clean Water Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Nuangola Borough	5150 Nuangola Road Mountain Top, PA 18707	Luzerne

Plan Description: The Plan's selected alternative is Alternative No.1. The selected alternative does not alter the layout of the Borough's proposed wastewater collection system within the corporate boundaries of Nuangola Borough. The layout of the proposed collection system remains the same as outlined in the Official Sewage Facilities Plan Update Revision approved by the Department on May 13, 2005. Alternative No. 1 of the current Plan does, however, revise the route and type of the Borough's proposed wastewater conveyance facilities located outside of the Borough in Rice and Dorrance Townships. Wastewater will be conveyed from the Nuangola Borough/Rice Township boundary on Church Road through a low-pressure force main to a proposed high-pressure pumping station to be located near the existing wastewater treatment facility on the Crestwood School District's Rice Elementary School Campus adjacent to the intersection of Church and Stairville Roads.

The existing wastewater treatment facility utilized by the school will be abandoned. Wastewater from the school will be discharged via a gravity lateral to the proposed pumping station. The combined sanitary wastewater stream from the school and the Borough will then be pumped through a proposed force main that will travel from the pumping station, south on Church Road, west on Stairville Road and southeast on Blytheburn Road. The force main will be located within the rights-of-way of each of the previously mentioned roadways. The force main will terminate and tie into an existing gravity manhole owned by the Mountaintop Area Joint Sanitary Authority (MAJSA) located in the right-of-way of Blytheburn Road approximately 425 feet south of the intersection of Blytheburn and Prospect Roads. Wastewater will then be conveyed from the tie-in point, as shown for Alternative No. 1 on the "Alternatives" Drawing found in the Plan, to the MAJSA Wastewater Treatment Facility for treatment with ultimate discharge of the treated wastewater to Big Wapwallopen Creek.

Financing of the proposed wastewater collection and conveyance system is to be provided by the United States Department of Agriculture's Rural Development Program.

Any additional wastewater-related improvements, additions, deletions or changes outside of those explicitly described in the Plan and its correspondence, must be in compliance with the Department's regulations and be submitted to and approved by the Department in writing. This approval correspondence covers only the wastewater planning aspects of the selected wastewater disposal alternative as it relates to Nuangola Borough's Official Sewage Facilities Plan. This review has also not identified any significant environmental impacts resulting from this proposal.

Northwest Region: Water Management Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Grove City Borough	123 West Main Street, Grove City, PA 16127	Mercer

Plan Description: The approved plan provides for amending a previous plan which would have resulted in an increase to the rated capacity of the WWTP from 3.0 to 3.525 MGD. The selected plan now recommends undertaking rehabilitation projects that will maintain the existing two-stage activated sludge treatment process and will allow the Grove City WWTP to continue to treat sewage flows up to 3.0 MGD. The WWTP will undergo two phases of rehabilitation. The flow allocation for each municipality will remain as previously established in their respective wastewater treatment service agreements. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Notice of Prompt Interim Response West Lebanon Groundwater Site West Lebanon Township, Lebanon County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites

Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305) has initiated a prompt interim response at the West Lebanon Groundwater Site (Site).

The Site is located in West Lebanon Township, Lebanon County. Groundwater from a public supply well is contaminated with tetrachloroethylene, also referred to as perchloroethylene (PCE). The West Lebanon Township Water System has 310 metered connections that serve a population of approximately 900 people.

The proposed response will consist of using an interconnection with the City of Lebanon Water Authority, treatment of the West Lebanon Municipal water supply, and removal of PCE contaminated soil. The interconnection with City of Lebanon Authority was initiated on November 14, 2011. At that time, the Township took Well #2 offline and activated the emergency interconnection. The Township has applied for and received permit approval for the addition of carbon treatment for the water supply. Areas of PCE contaminated soil in excess of the Land Recycling and Remediation Standards Act (Act 2) Residential Statewide Health Standard Soil to Groundwater Medium Specific Concentration of 0.5 ppm will be excavated and disposed in accordance with regulatory requirements. Clean fill will be used to replace the volume of excavated materials and the area will be graded and grass planted to restore the affected areas. Further investigation to determine the extent of soil and groundwater contamination will be conducted to determine if additional response actions are necessary.

The Department is providing this notice under sections 505(b) and 506(b) of HSCA (35 P. S. Sections 6020.505(b) and 6020.506(b)), and the publication of this notice in the *Pennsylvania Bulletin* starts the administrative record period under HSCA. The Administrative Record which contains information about this site and which supports the Department's decision to perform this action at the site is available for public review and comment. The Administrative Record can be examined Monday through Friday from 8:00 a.m. to 4:00 p.m. at the Department's Southcentral Regional Office located at 909 Elmerton Avenue, Harrisburg, PA 17110, by contacting Ms. Ruth Bishop at 717-705-4833. The Administrative Record can also be reviewed at the West Lebanon Township Building, 322 North 22nd Street, Lebanon, PA during normal business hours.

The Administrative record will be open for comment from the date of publication of this notice in the *Pennsylvania Bulletin* on March 31, 2012, and will remain open for 90 days. Persons may submit written comments regarding this action to the Department before June 29, 2012, by mailing them to Ms. Bishop at the DEP Southcentral Regional Office, 909 Elmerton Avenue, Harrisburg, PA 17110-8200.

The public will have an opportunity to present oral comments regarding the proposed action at a public hearing. The hearing has been scheduled for May 16, 2012, at 7:00 p.m. at the West Lebanon Township Building, 322 North 22nd Street, Lebanon, PA. Persons wishing to present formal oral comment at the hearing should register before 3:30 p.m., May 11, 2012, by calling Ms. Bishop at the above number. There will be an informational presentation of the Department's activities at this site prior to the public hearing.

Persons with a disability, who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should call Ms. Bishop at the above number or through the

Pennsylvania AT&T Relay Service at 1-800-654-5984 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Southeast Region: Environmental Cleanup Program Manager; 2 East Main Street, Norristown, PA 19401

Mt. Airy USA, City of Philadelphia, Philadelphia County. Jeremy W. Bolyn, Environmental Management Company, Inc. 1420 East Mermaid Lane, Glenside, PA, 19038 on behalf of Jason Salus, Mt. Airy USA, 6702 Germantown Avenue, Suite 200, Philadelphia PA 19067 has submitted a Final Report concerning remediation of site soil contaminated with lead. The report is intended to document remediation of the site to meet the Statewide Health Standard.

Westnor LP Facility, West Norriton Township, Montgomery County. Craig Herr, RT Environmental Services, Inc., 215 West Church Road, King of Prussia, PA
