DEPARTMENT OF ENVIRONMENTAL PROTECTION  
ENVIRONMENTAL CLEANUP AND BROWNFIELDS PROGRAM

March 28, 2012

Senator Mike Folmer  
Senate Of Pennsylvania  
Senate Post Office Box 203048  
Harrisburg, PA 17120-3048

Re: West Lebanon GW Site  
West Lebanon Township, Lebanon County

Dear Senator Folmer:

Please find enclosed the Notice of Response under the Hazardous Sites Cleanup Act for the West Lebanon Groundwater Site. This notice will be appearing in the Pennsylvania Bulletin on March 31, 2012 and subsequently in the Lebanon Daily News. Please note that a public hearing has been scheduled for May 16, 2012 at 7:00 p.m. at the West Lebanon Township Building. We hope that you may be able to attend. The plan for this site includes providing carbon treatment for the West Lebanon Municipal Supply Well #2 and excavation and disposal of PCE contaminated soil. An interconnection with the City of Lebanon is currently providing water to the municipal water system. Further investigation to determine the extent of soil and groundwater contamination will be conducted to determine if additional response actions are necessary.

The Hazardous Sites Cleanup Fund is essential to Pennsylvania's ability to address brownfield remediation, emergency response to toxic spills and cleanup of contaminated sites across the Commonwealth. If you need any further information regarding the action at the West Lebanon Groundwater site, please contact Ruth Bishop, Regional Project Manager, at 717.705.4833 or [rbishop@pa.gov](mailto:rbishop@pa.gov).

Sincerely,

Arthur Dalla Piazza, Chief  
Hazardous Sites Cleanup Section
