**Re: Sunoco Pipeline L.P., Pennsylvania Pipeline Project
Frankstown Township Supervisors
Frankstown Township, Blair County**

Dear Ms. Batoon:

At its November 17, 2015 meeting, the Board of Supervisors reviewed your November 10, 2015 submission pursuant to the Pennsylvania Department of Environmental Protection Chapter 102 and 105 requirements.

Please let this letter service as notice that Frankstown Township has both a floodplain ordinance and a storm water management ordinance.

The project as proposed appears to be consistent with the floodplain ordinance since Sonoco Pipeline L.P. will be applying for water obstruction and encroachment permits for the temporary construction impacts located within the floodplains of the Township.

The project as proposed appears to also be consistent with the storm water management ordinance because there are no aboveground facilities proposed. All construction in Frankstown Township will be restored to the identical preconstruction surface condition.

When detailed design drawings are available, please provide one (1) digital copy for public inspection at the Municipal Building. Should you have any questions, please contact me.

Sincerely,

Kevin Cramer
