JMT No: 18-00672-006

Dear Mr. John Nagel:

This municipal notice, under the requirements of Act 14, 97 P.S. § 510-5, is to inform you that we are pursuing a major amendment for the ESCGP-3 issued by DEP to the Adelpia Gateway Pipeline Project (ESG010019001). The following is the relevant project information, note that the bolded sites are the only sites within your jurisdiction that will be included as part of the amendment.

Applicant Contact: Mark Valori, Adelpia Gateway, LLC

Project Location: Mainline Valve 2: East Whiteland Township, PA, northeast of intersection of Phoenixville Pike and White Woods Ln

Project Description: The Adelpia Gateway Pipeline is an 84-mile pipeline that runs from Martins Creek to Marcus Hook. Facility upgrades will occur to thirteen (13) sites along the pipeline: Quakertown Compressor Station, East Perkiomen Blowdown, Skippack Pike Meter Station, Perkiomen Creek Blowdown, Schuylkill River Blowdown, Cromby Blowdown, French Creek Blowdown, **Mainline Valve 2**, Paoli Pike Blowdown, Chester Creek Blowdown, Mainline Valve 1, Transco Meter Station, and Marcus Hook Compressor Station.

Revisions included in Major Amendment: Mainline Valve 2 is located in East Whiteland Township. This site will undergo facility upgrades and the area of disturbance is approximately 5,102 square feet. This site will be restored to existing conditions, and as such, will not require post construction management controls.

This project was previously approved by PADEP in August 2020. An amendment is being submitted due to a increase of LOD and revisions to erosion and sediment controls.

Enclosed is a complete copy of the Notice of Intent (NOI) completed by the applicant for this project as well as copies of the erosion and sediment control plan and post construction stormwater management plans.

Sincerely,
