Doug McLearen  
Chief, Environmental Review  
Pennsylvania Historical and Museum Commission

Good afternoon, Doug -

Adelphia Gateway, LLC is proposing additional modifications to two Adelphia Gateway Project sites: the French Creek Blowdown Assembly Valve and the Transco Meter Station.. Although the modifications are relatively minor and would not include any new excavations outside of existing trenches, the PA DEP is requesting PHMC review of the modifications as part of their Completeness Review to the Project's Erosion and Sediment Control Permit application. I've included figures of the revised Project areas for your review. Also attached is a Project Review Form. Please note that the acreages on the Review Form reflect the acreages for the revised two sites only.

Please let me know if you have any questions.  
I ask that you please acknowledge receipt of the letter by replying to this email.

Thank you,  
Sara
