Subject: ESG010019001 - ESCGP-3 Adelphia Gateway Phase 2B
Date: Monday, October 5, 2020 2:58:00 PM

Hi Shiny,

As discussed earlier today with Allison Hill of your office, we understand that Adelphia Gateway is requesting to increase their earth disturbance activities from 1.3 acres as initially submitted for the above referenced application to 24.76 acres. At this time, we are requesting the following items to continue our coordinated technical review of this phase.

1. Conservation District fee of \$925.00
2. DEP disturbed acre fee of \$2,400.00
3. Amended E&S/Site Restoration Plan drawings

For Item 1, the applicant should send the Conservation District fee to the Delaware County Conservation District (DCCD), 1521 N Providence Rd, Media, PA 19063 (ATTN: Ed Magargee). Please contact Mr. Magargee if you have any questions regarding this item.

For Item 2, the applicant should send the DEP disturbed acre fee to the DEP Southeast Regional Office, 2 East Main Street, Norristown, PA 19401 (ATTN: Aaron Redmond). (\$100/Acre of earth disturbance payable to the "Commonwealth of PA Clean Water Fund") Also, please update the DEP NOI Checklist and DEP NOI for this requested increase in earth disturbance.

For Item 3, the applicant should amend the E&S/Site Restoration plan drawings to identify/label and delineate the proposed temporary parking, material laydown areas, and stockpiling areas. Please add adequate erosion and sedimentation (E&S) BMPs for these temporary earth disturbance activities. Also, please verify that the sequence of construction includes the install, operation/maintenance, and removal of these temporary earth disturbance activities and the associated E&S BMPs. In addition, please verify that the construction details and specifications for these areas and associated BMPs have been added to the plan drawing set. Please verify that the Site Restoration BMPs for these earth disturbance areas have been added to the E&S/Site Restoration plan drawings.

Also, the applicant will need to address all of the Chapter 102 regulations for these new earth disturbance areas, particularly 102.4(b)(4) "Unless otherwise authorized by the Department or conservation district after consultation with the Department, earth disturbance activities shall be planned and implemented to the extent practicable in accordance with the following: (i) Minimize the extent and duration of the earth disturbance..."

Upon receipt of these 3 items, the DCCD and the DEP will continue our coordinated technical review of this phase.

Please let me know if you have any questions. Thank you.

-Chris

All,

It's come to our attention that the revised PCSM report and cover ltr did not upload to the Sharepoint site on Friday. We have posted these files this afternoon. Please note that these documents were included on the DEP ftp site. Please let me know if you have any issues accessing the files.

Thank you.
