Re: Bishop Tube HSCA Site.

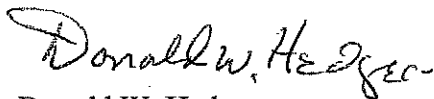

Dear Ms. Rosen:

I wish to acknowledge your letter to me dated April 23, 2007. You no doubt have received a copy of or information from my letter addressed to Mr. Armstrong, which I sent in response to your department's initial request of me for information on the Bishop Tube HSCA Site.

Mr. William Morehouse, Esq. is the partner at Wolf Block that is most familiar with the old files of Christiana Metals, Corp. He informs me that there are no files of Bishop Tube in the firm's old inactive storage and that the ones it has of Christiana are few. He informs me that none have any bearing whatsoever on environmental matters.

I am sorry that to date I have been of little help to you.

Sincerely,

Donald W. Hedges
