Dear Mr. Pavia:

Section 6020.103, which were generated, treated, stored, disposed, transported to, or released at the Site.

Specifically, your response to this request should include, but not be limited to, the following:

Documentation regarding the types and quantities of hazardous substances, or materials containing hazardous substances which were disposed of, stored, treated, spilled or released into the soil, groundwater or surface water at the Site. Please also describe the manner and the location in which any of the above materials were disposed of, stored, treated, spilled or released into the soil, groundwater or surface waters at the Site.
2. Documentation regarding the approximate dates such hazardous substances or materials containing hazardous substances, were disposed of, stored, treated, spilled or released at the Site.
