Re: Bishop Tube Site
East Whiteland Township
Chester County

Dear Sir or Madam:

This letter serves as notification that the Pennsylvania Department of Environmental Protection has investigated a release or threat of release of a contaminant or hazardous substance from the site, and has determined that further response action is appropriate.

The site is located at Route 30 and Malin Road, in Frazier, Chester County, Pennsylvania. The release concerns soil and groundwater contamination discovered during investigations conducted on behalf of Christiana Metals, a former site owner. Levels of trichloroethene (TCE) in the groundwater are indicative of a source of groundwater contamination. The extent of offsite groundwater contamination has not been determined. The Department has decided to conduct further investigation activities at the site.

Pursuant to Section 501(a) of the Pennsylvania Hazardous Sites Cleanup Act, Act 108 of October 18, 1988, (P.L. 756, No. 108), 35 P.S. Section 6020.501(a), the Department is required to notify the owner, operator, or other known responsible persons of such releases or threatened releases. Our information indicates that you operated at or owned this site. If so, you could be responsible under state or federal law for the cost or performance of any environmental investigations or cleanup actions this site may require.

This letter is not a final action by the Department, nor is any action being required of you by this letter. If you have any questions, or wish to schedule a meeting, please call Mr. Dustin A. Armstrong, Project Officer, at 610-832-6206.

Sincerely,
