January 14, 2022

Dustin A. Armstrong
Pennsylvania Department of Environmental Protection
2 East Main Street
Norristown, PA 19401

Mr. Armstrong,

I encourage the Department of Environmental Protection to move forward with the proposed remedial response action at the Bishop Tube site in East Whiteland Township. This contaminated area has been allowed to fester for far too long.

This site should be cleaned with the highest standard possible in mind, and the DEP must hold the responsible parties financially accountable. No matter what the site is used for in the future, we must make it as safe as possible.

That said, using this site for residential construction would be a serious mistake, and I urge you to ensure this site is never used for homes.

Sincerely,

Kristine C. Howard

Rep. Kristine Howard
167th Legislative District
