Re: Bishop Tube Site
Workplan For OU 3 Implementation

Dear Mr. Martin:

The Department of Environmental Protection (“DEP”) has reviewed the Revised Bishop Tube HSCA Site –Workplan for OU 3 Implementation (“Revised OU 3 Work Plan”), dated January 6, 2023 and email responses to DEP’s December 19, 2022 comment letter. The revised plan and response email were submitted by Roux Associates, Inc. (“Roux”), on behalf of Johnson Matthey Inc. and Whittaker Corporation (the “Bishop Tube Project Team”). DEP has determined that the Revised OU 3 Work Plan

- is consistent with the selected remedial alternative for OU3: Alternative 3 - Connection to the Existing Public Water Supply Waterline, Combined with Restrictions on the Use of Groundwater as described in DEP’s Statement of Decision, dated September 12, 2022, and
- complies with applicable, or relevant and appropriate requirements (“ARARS”).

Therefore, DEP accepts the Revised OU 3 Work Plan as final. Please keep us apprised with regard to implementation of the OU 3 remedy.

If you have any questions, please feel free to contact me at darmstrong@pa.gov or by phone at 484.250.5723.

Sincerely,

Dustin A. Armstrong
