Dear Mr. Bryan:

The Department of Environmental Protection (DEP) and the Chester County Conservation District (District) have reviewed the above-referenced application for completeness. The completeness review is the first step in a series of reviews conducted by DEP and the District.

DEP and the District have determined that the application package contains sufficient detail to enable DEP and the District to conduct the technical review; the application package has been accepted for that purpose.

This is not a final action by DEP or the District on this application. The completeness review is the first in a series of reviews conducted by DEP and the District. The application will now move to the technical review stage of the permit review process. During the technical review, the adequacy of the application and its components will be evaluated to determine if sufficient information exists to render a decision on the technical merits of the application.

Mr. Bryan
