**Re: Air Sampling History
Heidelberg Materials Northeast LLC
Rock Hill Quarry
SMP Permit No. 7974SM1
East Rockhill Twp., Bucks Co., PA**

Dear Mr. Tallman:

On behalf of Heidelberg Materials Northeast LLC ("Heidelberg"), please accept the attached chart, which summarizes historic naturally occurring asbestos air sampling information at the Rock Hill Quarry from 2019 through the present.

These air sampling results indicate that across 125 total samples (excluding field blanks) from background and activity-based sampling events, only four (4) total amphibole structures have been detected, none of which were determined to be of the asbestiform morphology. Even assuming that the identified structures were determined to be asbestiform, the detections would have resulted in concentrations significantly lower than the Department's applicable action level.

Please let us know if you need any additional information.

Sincerely,

Andrew J. Gutshall, P.G.
Mine Permitting Manager
