Comments/Recommendations: Enforcement since last FCE Yes No (If yes, attach summary)

I arrived on site at 3:00 pm to conduct a complaint investigation inspection regarding dust. I met with Charlie Elwell who gave me a tour of the facility. I observed dust being kicked up from trucks driving near where the permanent crusher is being constructed. Shortly after, the water truck wet that area. I was told that the water truck is always on site and it was used 3 times already today, and it will be used more frequently to control dust. I also observed dust coming from the primary crusher. There are water sprays on the conveyor belts which were spraying water when I was there.

Compliance Status: In Out Pending Awaiting Co. Report Needs a Follow-Up Inspection? Yes No

Company Representative: Stephen Bakerak	Title: Superintendent	Signature: <i>Stephen Bakerak</i>	Date: 4/23/2018
DEP Representative: Jennifer Ramez-Buschmann	Title: AQ Specialist	Signature: <i>Jennifer Ramez-Buschmann</i>	Date/Time: 4/23/18 4:00 pm

This document is official notification that a representative of the Department of Environmental Protection, Air Quality Program, inspected the identified site. The findings of this inspection are shown above and on any attached pages, and may include violations uncovered during the inspection. Violations may also be discovered upon review of sample results or from any additional review of Department records. Notification will be forthcoming, if such violations are noted.

Air Quality Program

Mr. Elwell instructed a worker to install a water spray bar on/near the primary crusher jaw. I observed that the crusher had stopped operating in order to install a water spray bar. Mr. Elwell informed me that they would be more diligent about controlling dust at the facility. He also told me that the site does not operate on Sundays.
