

NARRATIVE REPORT FORM

Facility Name: Glenwood Drive and Walker Road:

Primary Facility ID: 881609 _____

Inspection Date: 10-27-25		Inspection Time: 9:23		Lat/Long:	
Program: ECB		☐ Storage Tanks		☐ HSCA	
				☒ LRP	
Owner Name: Energy Transfer			Inspection ID:		Site ID:
Facility Location (911) Address: Glenwood Drive and Walker Road Washington Crossing, PA 18977				Municipality: Upper Makefield Twp.	
				County: Bucks	
Responsible Official Name: Brad Fish				Responsible Official Address:	
Title: Senior Environmental Specialist Emergency Response & Remediation				100 Green Street Marcus Hook, PA 19061	
Responsible Official Telephone: 610-859-6297					
Email Address: bradford.fish@energytransfer.com					
Entities Present:					
DEP – Rebecca Flannery					
ET – Devin Graham and Kevin Troutman					
Purpose: Daily gauging observation and response to email sent to the Department					
Weather: Sunny and mid-50's					
Narrative:					
I arrived at the site at 9:23am to observe the weekly gauging on select potable wells and two recovery wells (RW-2 and RW-3). I observed Devin and Kevin gauge the potable well at [REDACTED]. It had a PID reading of 45.8ppm, but no LNAPL was detected. I asked if any LNAPL was detected in the potable well at [REDACTED] and there was none detected. At 9:35 I met with the resident of [REDACTED] who requested that the Department be there when the sediment filter is changed. I noticed a petroleum odor once the filter was removed and that it was completely black. I inquired how frequently the sediment filter is changed; [REDACTED] stated about every 2-3 weeks. I asked [REDACTED] if [REDACTED] had any additional questions. [REDACTED] asked if how there can be different volumes of LNAPL if the measurement to the LNAPL is same. I let [REDACTED] know that they are now using a 4,000 mL plastic graduated cylinder, so there is a more accurate reading of the recovered LNAPL. Before I left, I asked [REDACTED] if [REDACTED] has heard anything regarding the installation of the newly drilled replacement potable well. [REDACTED] said [REDACTED] has heard nothing for about 3 weeks. I let [REDACTED] know that I'd relay that to the proper people. I spoke with Devin about the two recovery wells which had skimmers in them. RW-2 was being pumped as I spoke to him. I inquired how much LNAPL was recovered; he stated that the skimmer from RW-2 was full (4,000 ml) and RW-3 had about 50 mL of LNAPL. I left the neighborhood to speak with a resident on [REDACTED] who had contacted the Department about some results from [REDACTED] potable well. I rang the doorbell twice, with no answer. I called the number that was given to the Department, the call would not go through.
