NARRATIVE REPORT FORM

Facility Name: Glenwood Drive and Walker Road

Primary Facility ID: 881609 _____

Narrative (continued):

Information from GES:

- Gauging only occurs on Monday, Wednesday, and Fridays.
- There was an absorbent sock installed last Friday at [REDACTED] and [REDACTED].
- A replacement absorbent sock will be installed at [REDACTED] after second gauging event.

Observations:

- Suburban Water was present in the neighborhood performing routine maintenance.

[REDACTED]:

- The well was gauged with absorbent sock in
- After the sock was pulled, GES estimated it to be 100% saturated.
- A total of five (5) full bales were removed from the well and placed into the graduated cylinder.
- I observed a small sheen of LNAPL and decayed matter.
- The well was not gauged again after the water was bailed out
- The resident observed the activities.

[REDACTED]:

- The well was gauged with absorbent sock in
- After the sock was pulled, GES estimated it to be 100% saturated.
- A total of five (5) full bales were removed from the well and placed into the graduated cylinder.
- The amount of LNAPL was estimated to be around 450mL.
- A LNAPL sample was collected at 9:38.
- A new absorbent sock was installed in the well.

[REDACTED]:

- The resident observed the gauging of their potable well.

Recovery well RW-2:

- Depth to LNAPL/water was gauged with skimmer in
- Before the LNAPL was emptied into the graduated cylinder, a sample was collected at 10:15.
- The skimmer only contained LNAPL, no water.
- There was 130mL of LNAPL measured in the graduated cylinder.
- All water and LNAPL was placed in a metal bucket to be disposed of later.
- The depth to water was gauged again and then the skimmer was replaced into the recovery well.

Recovery Well RW-3:

- Depth to LNAPL/water was gauged with skimmer in
- Before the LNAPL was emptied into the graduated cylinder, a sample was collected at 10:25.
- The skimmer only contained LNAPL, no water.
- There was 890mL of LNAPL measured in the graduated cylinder.
- All water and LNAPL was placed in a metal bucket to be disposed of later.
- The depth to water was gauged again and then the skimmer was replaced into the recovery well.

I departed the site at 10:32.
