Pipeline: Junction to Monaca, Pipeline terminus in Monaca

Public Water Supply Contact Log - Beaver County

AECOM ID	PWS ID	Name	Source	Township	Phone	Contact	Date	Time	Result
B	5040312	Beaver County Conversation District	Groundwater	Independence	724-378-1701	James Shaner	6/12/2018	9:42	Left message on voicemail
						James Shaner	6/13/2018	13:22	Left message on voicemail
						James Shaner	6/15/2018	11:23	Left message on voicemail (returned missed call)
						Mike Price or Georgia Miller	6/20/2018	9:14	Shaner on vacation for 2 weeks. Requested a new contact.
					724-987-2225	Mike Price	6/25/2018	1:15	Mr. Price explained the location of the well, photos taken; there is a 2nd water well closer to ROW, but it's not in use due to bad quality; he has no issues or concerns with the project impacting their water supply; the well serves only main office / classroom building; a water buffalo would be needed for temporary replacement of the water service, a new well would be a permanent solution; no knowledge of a protection zone
C	5040389	Independence Elementary School	Groundwater	Independence	724-375-3201	Mr. Paulino	6/12/2018	9:45	Left message with receptionist
						Mr. Paulino	6/13/2018	13:17	Could not get through
						Janet Smith	6/20/2018	9:20	Secretary in Buildings/Grounds Dept
						Mr. Pelino	6/26/2018	9:20	Emailed Mr. Pelino
						Mr. Pelino	7/6/2018	8:33	Left a message for Janet and email for Mr. Pelino
						-	7/25/2018	10:29	Left a message
					724-375-6691 ext 2015 (Janet)	Sean	7/25/2018	12:05	Met with; were unaware of any emergency plan, would most likely need water buffalos in an emergency
D	5040834	Independence Volunteer Fire Department	Groundwater	Independence	724-378-3739	Daniel McLaughlin and Debra Shaffer	6/12/2018	9:49	Spoke with: the township owns the building and they test their water every month. They don't know any specifications on the well sent shapefile and map
						Debra Shaffer / Wendy	7/25/2015	10:24	Spoke to Wendy (Debra's office) - she explained where the well is and said it is OK to come out to obtain info
						Debra Shaffer	7/25/2018	12:15	Met with and took coordinates.
							6/12/2018	9:56	Left message on voicemail
							6/12/2018	10:36	Spoke with (owner will contact us). There is an additional well used for agriculture purposes. The water is tested once a year in the spring; he tests other nearby wells as well. He is aware of the pipeline and does not need additional maps. He estimates a max draw rate of 150/day.
E	5040857	McConnell's Farm & Market, Inc	Groundwater	Independence	724-302-6673	Calvin W McConnell	6/25/2018	9:18	Arranged to meet Mr. McConnell at 1 pm, sent route map
									Mr. McConnell showed me the location of their well, photos taken; he has no issues or concerns with the project impacting their water supply; the well serves only the "market" building; the water is used in their bakery and cider businesses; a water buffalo would be needed for temporary replacement of the water service, a new well would be a permanent solution; no knowledge of a protection zone
							6/25/2018	12:45	
						Wilbur Olsewski	6/12/2018	9:59	Left message with receptionist
							6/13/2018	13:05	Left message on voicemail
					774-572-0607		6/27/2018	2:15	Left message on voicemail

Public Water Supply Contact Log - Beaver County

AECOM ID	PWS ID	Name	Source	Township	Phone	Contact	Date	Time	Result
F	5040369	Hookstown Free Methodist Ch	Groundwater	Hookstown Borough	724-573-2072	Myron Elliott or other Trustee	7/6/2018	8:36	Left message on voicemail
							7/25/2018	9:53	Spoke to Ethel the receptionist who would give Mr. Elliott my number for a call back Went out to field and identified the well. Mr. Elliott was unaware of any special protection plan. Would need buffalos in the event of an emergency because there is no municipal water there
G	5040850	Hookstown Fair	Groundwater	Greene	724-573-4512/724-709-9888	Myron Elliott, Church Trustee	7/26/2018	10:30	no municipal water there
							6/12/2018	10:00	Left message on voicemail
							6/13/2018	12:38	Left message on voicemail
							6/13/2018	12:38	Spoke with James Scott; he stated that the well is tested every month from April to October.
							6/27/2018	2:20	Left a message
							7/6/2018	8:28	Left a message Met with Mr. Scott. He said that the well can typically service about 50 people. During their big five-day fair in August though they can service 30,000 people. If something happened to the well then, they would have to shut the fair down. Other times though a water buffalo would do. There is an emergency hydrant that can be used for livestock in the event of a natural disaster. It comes from an underground line from Greene Township.
H	5040377	Hookstown Grange 1980	Groundwater	Greene	724-573-4512/724-709-9888	James Scott	7/17/2018	9:00	Left message on voicemail
							6/12/2018	10:00	Left message on voicemail
							6/13/2018	12:38	Left message on voicemail
							6/13/2018	12:50	Spoke with Mr. Scott; the well is tested every month. Does not need maps.
							6/27/2018	2:20	Same contact as Hookstown Fair
I	5040831	South Side Memorial Post 952	Groundwater	Greene	724-480-2269	Lance D Angle	7/6/2018	8:28	Left a message
							7/17/2018	9:00	Met with Mr. Scott. They have four wells at this location. Two that run all of the time and service the grange hall, office trailer and outside spigot. The other two are used seasonally for public events. Unable to contact
							6/12/2018	10:02	Unable to contact
							6/13/2018	12:55	Unable to contact
							6/13/2018	14:52	Visited in person. Bartender gave different contact name, but there was no one who could answer questions there
							6/27/2018	2:25	Got a new contact name, left a message
							7/6/2018	8:37	Left a message
							7/24/2018	1:07	Left a message
							7/24/2018	4:00	Met and obtained details: On A typical day they serve around 50 people. On days that they have events and the bar open, they can serve up to 500 people. If something were to occur to damage the water supply they would need multiple buffalos.

Public Water Supply Contact Log - Beaver County

AECOM ID	PWS ID	Name	Source	Township	Phone	Contact	Date	Time	Result
J	5040366	Jack's Diner	Groundwater	Greene	724-494-9223	Did not provide	6/12/2018	10:03	Referred to next call below
							6/12/2018	10:04	Left message on voicemail
							6/13/2018	12:58	Left message on voicemail
							6/15/2018	12:58	Person who answered was unable to provide information & did not provide name
							6/27/2018	2:30	Call back in evening
							7/6/2018	8:40	Left a message
							7/24/2018	1:30	Set up meeting for today - 7/24/18
K	5040300	Nova Chemical, Inc	Surface Water - Ohio River	Potter	724-770-4340	John Feraco John Feraco Brian Stansloski	6/12/2018	10:05	Left message on voicemail
							6/13/2015	13:00	Left message on voicemail
							6/27/2018	2:35	Left a message
							7/6/2018	9:10	Confirmed location of pump house at the river; intake serves both BASF and Nova facilities; only a small portion of water used at Nova is for janitorial use, bathrooms, laundry, etc., mostly for industrial use. BASF use unknown; if river water quality was impacted, they would be looking for assistance with filtration or purification to fix water quality issue; no knowledge of a protection zone
									Met and obtained details: the most people they can have would be 200. If something were to happen to the well they would need multiple buffalos to help with restaurant activities like dishwashing and cooking.
									Person who answered was unable to provide information & did not provide name
									Set up meeting for today - 7/24/18
